### Subpart 1846.4—Government Contract Quality Assurance

#### 1846.401 General. (NASA supplements paragraph (a))

(a) The quality assurance surveillance plan (QASP) which the project office prepares in conjunction with the statement of work is preliminary. It reflects the Government's surveillance approach relative to the perceived programmatic risk, and is written at a general rather than specific level because the risks will not be completely identified at that time. After contract award, contracting officers shall ensure that the QASP is revised to reflect the risks associated with the successful proposal. This final QASP shall not be included in the contract, but should be periodically reviewed to ensure its currency.
