

of contract line items to facilitate payment, delivery tracking, contract funds accounting, or other management purposes. Such subline items shall be used when items bought under one contract line item number—

(i) Are to be paid for from more than one accounting classification. A subline item shall be established for the quantity associated with the single accounting classification citation. Establish a line item rather than a subline item if it is likely that a subline item may be assigned additional accounting classification citations at a later date. Identify the funding as described in 204.7104-1(a)(3);

(ii) Are to be packaged in different sizes, each represented by its own NSN;

(iii) Have collateral costs, such as packaging costs, but those costs are not a part of the unit price of the contract line item;

(iv) Have different delivery dates or destinations or requisitions, or a combination of the three; or

(v) Identify parts of an assembly or kit which—

(A) Have to be separately identified at the time of shipment or performance; and

(B) Are separately priced.

(2) Each separately identified contract subline item shall have its own—

(i) Delivery schedule, period of performance, or completion date;

(ii) Unit price or single total price or amount (not separately priced (NSP) is acceptable as an entry for price or amount if the price is included in another subline item or a different contract line item). This requirement does not apply—

(A) If the subline item was created to refer to an exhibit or an attachment. If management needs dictate that a unit price be entered, the price shall be set forth in the item description block of the schedule and enclosed in parentheses; or

(B) In the case of indefinite delivery contracts described at 204.7103-1(a)(1)(vi).

(iii) Identification (e.g., NSN, item description, manufacturer's part number, scope of work, description of services).

(3) Unit prices and extended amounts.

(i) The unit price and total amount for all subline items may be entered at the contract line item number level if the unit price for the subline items is identical. If there is any variation, the subline item unit prices shall be entered at the subline item level only.

(ii) The unit price and extended amounts may be entered at the subline items level.

(iii) The two methods in paragraphs (b)(3) (i) and (ii) of this subsection shall not be combined in a contract line item.

(iv) When the price for items not separately priced is included in the price of another subline item or contract line item, it may be necessary to withhold payment on the priced subline item until all the related subline items that are not separately priced have been delivered. In those cases, use the clause at 252.204-7002, Payment for Subline Items Not Separately Priced.

204.7104-2 Numbering procedures.

(a) Number subline items by adding either two numeric characters or two alpha characters to the basic contract line item number.

(1) *Information subline item numbers.* Use numeric characters only for information subline items, running 01 through 99. Do not use spaces or special characters to separate the subline item number from the contract line item number that is its root. For example, if the contract line item number is 0001, the first three subline items would be 000101, 000102, and 000103. Do not use a designation more than once within a contract line item.

(2) *Separately identified subline items.* Use alpha characters only for separately identified subline items, running AA through ZZ. Do not use spaces or special characters to separate the subline item number from the contract line item number that is its root. For example, if the contract line item number is 0001, the first three subline items would be 0001AA, 0001AB, and 0001AC.

(i) Do not use the letters I or O as alpha characters.

(ii) Use all 24 available alpha characters in the second position before selecting a different alpha character for

204.7104-2

48 CFR Ch. 2 (10-1-02 Edition)

the first position. For example, AA, AB, AC, through AZ before beginning BA, BB, and BC.

(b) Within a given contract line item, the subline item numbers shall be sequential but need not be consecutive.

(c) Exhibits may be used as an alternative to setting forth in the schedule a long list of contract subline items. If exhibits are used, create a contract subline item citing the exhibit's identifier. See 204.7105.

(d) If a contract line item involves ancillary functions, like packaging and handling, transportation, payment of state or local taxes, or use of reusable containers, and these functions are normally performed by the contractor and the contractor is normally entitled

to reimbursement for performing these functions, do not establish a separate subline item solely to account for these functions. However, do identify the functions in the contract schedule. If offeror separately prices these functions, then contracting officers may establish separate subline items for the functions; however, the separate subline items must conform to the requirements of 204.7104-1.

(e) The following examples illustrate subline items numbering—

(1) Subline items structured to identify destinations for identical items, identically priced (delivery schedule shall be established for each subline item, not the contract line item).

Item No.	Supplies/service	Quantity	Unit	Unit price	Amount
0001	NSN 1615-00-591-6620 Shim, Aluminum Alloy, Apbl, Rotor, Helicopter PRON A1-9-63821-M1-M1 ACRN:AA.

(2) Subline items structured to identify destinations for identical items, not identically priced (delivery schedule

shall be established for each subline item, not the contract line item).

Item No.	Supplies/service	Quantity	Unit	Unit price	Amount
0001	NSN 1615-00-591-6620 Shim, Aluminum Alloy, Apbl, Rotor, Helicopter PRON A1-9-63821-M1-M1 ACRN:AA.

Note: Difference in prices for identical items is due to separate destinations for FOB destination delivery.

(3) Subline items structured to identify different sizes of an item that are identically priced (delivery schedule

shall be established for each subline item, not the contract line item).

(5) Subline items structured to provide the capability for relating subordinate separately priced packaging costs to the overall contract line item. (Separate delivery schedules shall be established for the subline item identifying the contractor's product and for the subline item identifying packaging. No schedule will be established for the contract line item.)

204.7105 Contract exhibits and attachments.

(a) *Use of exhibits.* (1) Exhibits may be used instead of putting a long list of contract line items or subline items in the contract schedule. Exhibits are particularly useful in buying spare parts.

(2) When using exhibits, establish a contract line or subline item and refer to the exhibit.

(3) Identify exhibits individually.

(4) Each exhibit shall apply to only one contract line item or subline item, except—

(i) One exhibit may apply to one or more option line item(s) when the data required under the exhibits is identical in all respects except the period during which the option is to be exercised; and

(ii) An exhibit may apply to more than one contract line item if the exhibit is not separately priced and the exhibit deliverable is identical for all applicable contract line items.

(5) More than one exhibit may apply to a single contract line item.

(6) Data items on a DD Form 1423, Contract Data Requirements List, may be either separately priced or not separately priced.

(i) *Separately priced.* When data are separately priced, enter the price in

only one place in the contract: in either Section B of the contract schedule or on the DD Form 1423. Whichever place, display the price there consistently.

(A) Section B. If the prices are entered in section B of the schedule, detach Blocks 17 and 18 of the DD Form 1423 and file elsewhere in the contract file. If the prices are entered on the DD Form 1423, do not detach Blocks 17 and 18 of the DD Form 1423.

(B) DD Form 1423. If the prices are entered on the DD Form 1423, the price of all separately priced deliverable data items attributable to a line item shall be totalled and included, for information purposes, in parentheses, below the supplies services for that line item, in section B of the schedule.

(ii) *NSP.* Include prices in a priced contract line item or subline item. Detach Blocks 17 and 18 of the DD Form 1423 and retain them elsewhere as required.

(7) The contracting officer may append attachments to exhibits, as long as the attachment does not identify a deliverable requirement which has not been established by a contract or exhibit line or subline item.

(b) *Numbering exhibits and attachments.* (1) Use alpha characters to identify exhibits. The alpha characters shall be either single or double capital letters. Do not use the letters I or O.
