

higher relative value than data that merely describe the item or provide performance characteristics.

(3) Do not accept technical data that do not conform to the contractual requirements in all respects. Except for nonconforming restrictive markings (see paragraph (b)(4) of this subsection), correction or replacement of nonconforming data or an equitable reduction in contract price when correction or replacement of the nonconforming data is not practicable or is not in the Government's interests, shall be accomplished in accordance with—

(i) The provisions of a contract clause providing for inspection and acceptance of deliverables and remedies for nonconforming deliverables; or

(ii) The procedures at FAR 46.407(c) through (g), if the contract does not contain an inspection clause providing remedies for nonconforming deliverables.

(4) Follow the procedures at 227.7103-12(a)(2) if nonconforming markings are the sole reason technical data fail to conform to contractual requirements. The clause at 252.227-7030 may be used to withhold an amount for payment, consistent with the terms of the clause, pending correction of the nonconforming markings.

(c) *Warranty.* (1) The intended use of the technical data and the cost, if any, to obtain the warranty should be considered before deciding to obtain a data warranty (see FAR 46.703). The fact that a particular item, component, or process is or is not warranted is not a consideration in determining whether or not to obtain a warranty for the technical data that pertain to the item, component, or process. For example, a data warranty should be considered if the Government intends to repair or maintain an item and defective repair or maintenance data would impair the Government's effective use of the item or result in increased costs to the Government.

(2) As prescribed in 246.710, use the clause at 252.246-7001, Warranty of Data, and its alternates, or a substantially similar clause when the Government needs a specific warranty of technical data.

#### **227.7103-15 Subcontractor rights in technical data.**

(a) 10 U.S.C. 2320 provides subcontractors at all tiers the same protection for their rights in data as is provided to prime contractors. The clauses at 252.227-7013, Rights in Technical Data—Noncommercial Items, and 252.227-7037, Validation of Restrictive Markings on Technical Data, implement the statutory requirements.

(b) 10 U.S.C. 2321 permits a subcontractor to transact directly with the Government matters relating to the validation of its asserted restrictions on the Government's rights to use or disclose technical data. The clause at 252.227-7037 obtains a contractor's agreement that the direct transaction of validation or challenge matters with subcontractors at any tier does not establish or imply privity of contract. When a subcontractor or supplier exercise its right to transact validation matters directly with the Government, contracting officers shall deal directly with such persons, as provided at 227.7103-13(c)(3).

(c) Require prime contractors whose contracts include the following clauses to include those clauses, without modification except for appropriate identification of the parties, in contracts with subcontractors or suppliers, at all tiers, who will be furnishing technical data for non-commercial items in response to a Government requirement:

(1) 252.227-7013, Rights in Technical Data—Noncommercial Items;

(2) 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(3) 252.227-7028, Technical Data or Computer Software Previously Delivered to the Government; and

(4) 252.227-7037, Validation of Restrictive Markings on Technical Data.

(d) Do not require contractors to have their subcontractors or suppliers at any tier relinquish rights in technical data to the contractor, a higher tier subcontractor, or to the Government, as a condition for award of any contract, subcontract, purchase order, or similar instrument except for the rights obtained by the Government under the Rights in Technical Data—Noncommercial Items clause contained

## Department of Defense

## 227.7104

in the contractor's contract with the Government.

[56 FR 36389, July 31, 1991, as amended at 60 FR 61598, Nov. 30, 1995]

### **227.7103-16 Providing technical data to foreign governments, foreign contractors, or international organizations.**

Technical data may be released or disclosed to foreign governments, foreign contractors, or international organizations only if release or disclosure is otherwise permitted both by Federal export controls and other national security laws or regulations. Subject to such laws and regulations, the Department of Defense—

(a) May release or disclose technical data in which it has obtained unlimited rights to such foreign entities or authorize the use of such data by those entities; and

(b) Shall not release or disclose technical data for which restrictions on use, release, or disclosure have been asserted to foreign entities, or authorize the use of technical data by those entities, unless the intended recipient is subject to the same provisions as included in the use and non-disclosure agreement at 227.7103-7 and the requirements of the clause at 252.227-7103, Rights in Technical Data—Noncommercial Items, governing use, modification, reproduction, release, performance, display, or disclosure of such data have been satisfied.

### **227.7103-17 Overseas contracts with foreign sources.**

(a) The clause at 252.227-7032, Rights in Technical Data and Computer Software (Foreign), may be used in contracts with foreign contractors to be performed overseas, except Canadian purchases (see paragraph (c) of this subsection), in lieu of the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, when the Government requires the unrestricted right to use, modify, reproduce, perform, display, release or disclose all technical data to be delivered under the contract. Do not use the clause in contracts for existing or special works.

(b) When the Government does not require unlimited rights, the clause at 252.227-7032 may be modified to accom-

modate the needs of a specific overseas procurement situation. The Government should obtain rights in the technical data that are not less than the rights the Government would have obtained under the data rights clause(s) prescribed in this part for a comparable procurement performed within the United States or its possessions.

(c) Contracts for Canadian purchases shall include the appropriate data rights clause prescribed in this part for a comparable procurement performed within the United States or its possessions.

### **227.7104 Contracts under the Small Business Innovation Research (SBIR) Program.**

(a) Use the clause at 252.227-7018, Rights in Noncommercial Technical Data and Computer Software—Small Business Innovation Research (SBIR) Program, when technical data or computer software will be generated during performance of contracts under the SBIR program.

(b) Under the clause at 252.227-7018, the Government obtains a royalty-free license to use technical data marked with an SBIR data rights legend only for government purposes during the period commencing with contract award and ending five years after completion of the project under which the data were generated. Upon expiration of the five-year restrictive license, the Government has unlimited rights in the SBIR data. During the license period, the Government may not release or disclose SBIR data to any person other than its support services contractors except—

(1) For evaluational purposes;

(2) As expressly permitted by the contractor; or

(3) A use, release, or disclosure that is necessary for emergency repair or overhaul of items operated by the Government.

(c) Do not make any release or disclosure permitted by paragraph (b) of this section unless, prior to release or disclosure, the intended recipient is subject to the use and nondisclosure agreement at 227.7103-7.

(d) Use the clause at 252.227-7018 with its Alternate I in research contracts
