materials or services can be obtained elsewhere, such factors as the urgency of supply schedules, technical capacity of the contractor, comparative prices, and time and expense involved in re-issuing the contract, including termination payment, establish that it is to the Government's advantage not to resort to alternative sources merely because the contractor or subcontractor may require a guaranteed loan.

(e) If it is known at the time the contract is to be awarded that the low offeror who is technically qualified and competent to furnish the required materials and services will require a guaranteed loan, the contracting officer should obtain appropriate advice and in reaching a decision should consider at least the following:

(1) The savings to be realized by awarding the contract to the low offeror;

(2) The risk to the Government in guaranteeing a loan; and

(3) The likelihood, if award is made to the second low offeror, of that offeror's applying for a guaranteed loan at a later date.

Extreme care should be exercised in rejecting a low bid or proposal simply because the low offeror requires a guaranteed loan.

(f) The amount of the loan should bear reasonable relationship to such factors as the value and terms of the contract, the probable investment required to be made by the contractor in payrolls and inventories, the frequency with which contract payments are to be made, and the borrower's current working capital position.

(g) Borrowings for working capital purposes under guaranteed loans shall be limited to the amount necessary to perform the contract for which the loan is sought. In order that the contractor will also use its own funds in the performance of the contracts, amounts outstanding under the loan or line-of-credit shall be limited to an amount not to exceed 90 percent of the borrower's investment in its contracts, regardless of the total amount of the loan or line of credit authorized. The borrower's investment includes all items for which the borrower would be entitled to payment on performance or termination of contracts, but does not

include any items for which no work has been done nor expenditures made.

(h) Unless there are exceptional circumstances, the loan should mature not later than 30 days after the estimated date of final payment under the contract.

(b) The materials or services cannot as a practical matter be obtained from alternate sources without delay or impeding the Government's interest, except that no small business concern shall be held ineligible for the issuance of such guarantee by reason of alternative sources of supply.

(c) The contractor has demonstrated its inability to obtain the necessary financing in conventional credit channels without the guarantee.

(d) There is reasonable assurance that the loan can be repaid.

(e) The contractor is competent to perform the contract.

#### 933.102 General. (DOE coverage— paragraph (b))

(b) The Heads of Contracting Activities, for contracts estimated to be within the limits of their delegated authority, may, without power of redelegation, provide corrective relief in response to a protest in accordance with 48 CFR 33.102(b).

[63 FR 53758, Oct. 16, 1997]

#### 933.103 Protests to the agency. (DOE coverage—paragraphs (f), (i), (j), and (k))

(f) If FAR 33.103(f) requires that award be withheld or performance be suspended or the awarded contract be terminated pending resolution of an agency protest, authority to award and/or continue performance of the protested contract may be requested by the Head of the Contracting Activity (HCA), concurred in by counsel, and approved by the Procurement Executive.

(i)(1) Protests filed with the contracting officer before or after award shall be decided by the Head of the Contracting Activity except for the fol-

lowing cases, which shall be decided by the Procurement Executive:

(i) The protester requests that the protest be decided by the Procurement Executive.

(ii) The HCA is the contracting officer of record at the time the protest is filed, having signed either the solicitation where the award has not been made, or the contract, where the award or nomination of the apparent successful offeror has been made.

(iii) The HCA concludes that one or more of the issues raised in the protest have the potential for significant impact on DOE acquisition policy.

(2) Upon receipt of a protest requesting a decision by the Procurement Executive, the contracting activity shall immediately provide a copy of the protest to the Office of Contract Management.

(j) The Department of Energy encourages direct negotiations between an offeror and the contracting officer in an attempt to resolve protests. In those situations where the parties are not able to achieve resolution, the Department favors the use of alternative dispute resolution (ADR) techniques to resolve protests. A protest requesting a decision at the Headquarters level shall state whether the protester is willing to utilize ADR techniques such as mediation or nonbinding evaluation of the protest by a neutral. Upon receipt of a protest requesting a decision at the Headquarters level, the Office of Contract Management will explore with the protester whether the use of ADR techniques would be appropriate to resolve the protest. Both parties must agree that the use of such techniques is appropriate. If the parties do not mutually agree to utilize ADR to resolve the protest, the protest will be processed in accordance with the procedures set forth in paragraph (k).

(k) Upon receipt of a protest lodged with the Department, the contracting officer shall prepare a report similar to that discussed in FAR 33.104(a)(3)(iii). In the case of a protest filed at the Headquarters level, the report shall be forwarded to the Office of Contract Management within 21 calendar days of being notified of such a protest with a proposed response to the protest.
