Nuclear waste, as used in this clause, means any radioactive waste material subject to regulation by the Nuclear Regulatory Commission or the Department of Energy, or in the case of foreign offers, by comparable foreign organizations.

United States company, as used in this clause, means a company which offers to perform nuclear hot cell services at a facility subject to the laws and regulations of the United States, its agencies, and its political subdivisions.

(b) In selecting a competitive offer for a first-tier subcontract acquisition of nuclear hot cell services, the contractor shall (1) consider neither costs related to the decommissioning of nuclear waste facilities nor costs related to the storage and disposal of nuclear waste, or (2) add these costs to offers of foreign companies, if—

(i) one or more of the offers is submitted by a United States company and includes costs related to the decommissioning of nuclear facilities and costs related to the storage and disposal of nuclear waste because it is subject to such cost; and

(ii) one or more of the offers is submitted by a foreign company and does not include these types of costs. (A foreign company might not be subject to such costs or might not have to include these types of cost in its offer if the firm is subsidized in decommissioning activity or storage and disposal of nuclear waste, or a foreign government is performing the activities below the actual cost of the activity.)

(c) Upon determining that no offer from a foreign firm has a reasonable chance of being selected for award, the requirements of this clause will not apply.
