

included by the submitter in its domestic fleet under the plan (i.e., those with at least 50 percent but less than 75 percent U.S. or Canadian value added), provide the following information:

(1) A description of the model type, including engine type and displacement, transmission class, car line designation, and fuel economy;

(2) The projected U.S. sales of the model type;

(3) The average total manufacturing cost per vehicle for the model type;

(4) The percentage of the cost to the manufacturer attributable to value added in the United States or Canada for the model type:

(b) For each year covered by the plan, a list of individual product actions (e.g., change from imported engine to domestically manufactured engine) which will increase the domestic content of the affected vehicles. For each action, provide the model year in which the action will take effect, a description of the nature of the action, and the percentage change in domestic content resulting from the action.

[47 FR 7248, Feb. 18, 1982, as amended at 59 FR 25576, May 17, 1994]

**§ 526.4 [Reserved]**

**§ 526.5 Earning offsetting monetary credits in future model years.**

Each plan submitted under section 502(l) of the Motor Vehicle Information and Cost Savings Act must contain the following information:

(a) Projected average fuel economy and production levels for the class of automobiles which may fail to comply with a fuel economy standard and for any other classes of automobiles from which credits may be transferred, for the current model year and for each model year thereafter ending with the last year covered by the plan.

(b) A list and full description of each planned product action (e.g., new model, mix change) which will affect the average fuel economy of the class of automobiles subject to the credit earning plan, for each model year beginning with the current model year and ending with the last year covered by the credit earning plan.

(c) The portion of the petitioner's fleet affected by each product action

(e.g., all K-cars with 6-cylinder engines) and the number of affected vehicles.

(d) The fuel economy effect of each product action specified under paragraph (b) of this section per affected vehicle.

**PART 529—MANUFACTURERS OF MULTISTAGE AUTOMOBILES**

Sec.

529.1 Scope and purpose.

529.2 Applicability.

529.3 Definitions.

529.4 Requirements for incomplete automobile manufacturers.

529.5 Requirements for intermediate manufacturers.

529.6 Requirements for final-stage manufacturers.

AUTHORITY: Sec. 301, Pub. L. 94-163, 80 Stat. 901 (15 U.S.C. 2001); delegation of authority at 41 FR 25015, June 22, 1976.

SOURCE: 42 FR 38372, July 28, 1977, unless otherwise noted.

**§ 529.1 Scope and purpose.**

This part determines, in cases where more than one person is the manufacturer of an automobile, which person is to be treated as the manufacturer for purposes of compliance with Title V of the Motor Vehicle Information and Cost Savings Act, as amended (15 U.S.C. 2001 et seq.) and rules issued thereunder.

**§ 529.2 Applicability.**

This part applies to incomplete automobile manufacturers, intermediate manufacturers, and final-stage manufacturers of automobiles that are manufactured in two or more stages.

**§ 529.3 Definitions.**

(a) *Statutory terms.* (1) The term *automobile* is used as defined in section 501 of the Act and in accordance with the determinations in 49 CFR part 523.

(2) The terms *manufacture*, *manufacturer*, and *fuel economy* are used as defined in section 501 of the Act.

(b) *Other terms.* (1) *Act* means the Motor Vehicle Information and Cost

## § 529.4

## 49 CFR Ch. V (10-1-02 Edition)

Savings Act (Pub. L. 92-513), as amended by the Energy Policy and Conservation Act (Pub. L. 94-163).

(2) *Completed automobile* means an automobile that requires no further manufacturing operations to perform its intended function, other than the addition of readily attachable components, such as mirrors or tire and rim assemblies, or minor finishing operations such as painting.

(3) *Curb weight* is defined the same as *vehicle curb weight* in 40 CFR part 86.

(4) *Final-stage manufacturer* means a person who performs such manufacturing operations on an incomplete automobile that it becomes a completed automobile.

(5) *Frontal area* is used as defined in 40 CFR 86.079-2.

(6) *Incomplete automobile* means an assemblage consisting, as a minimum, of frame and chassis structure, power train, steering system, suspension system, and braking system to the extent that those systems are to be part of the completed automobile, that requires further manufacturing operations, other than the addition of readily attachable components, such as mirrors or tire and rim assemblies, or minor finishing operations such as painting, to become a completed automobile.

(7) *Incomplete automobile manufacturer* means a person who manufactures an incomplete automobile by assembling components none of which, taken separately, constitute a complete automobile.

(8) *Intermediate manufacturer* means a person, other than the incomplete automobile manufacturer or the final-stage manufacturer, who performs manufacturing operations on an incomplete automobile.

[42 FR 38372, July 28, 1977, as amended at 42 FR 39983, Aug. 8, 1977]

### § 529.4 Requirements for incomplete automobile manufacturers.

(a) Except as provided in paragraph (c) of this section, §§ 529.5 and 529.6, each incomplete automobile manufacturer is considered, with respect to multistage automobiles incorporating its incomplete automobiles, the manufacturer of the multistage automobiles for purposes of the requirements of Title V and rules issued thereunder.

(b) Each incomplete automobile manufacturer shall furnish with each of its incomplete automobiles, when it is delivered to the subsequent manufacturer, (1) a document that contains the following information—

(i) Name and mailing address of the incomplete automobile manufacturer.

(ii) Month and year during which the incomplete automobile manufacturer performed its last manufacturing operation on the incomplete automobile.

(iii) Identification of the incomplete automobile or group of incomplete automobiles to which the document applies. The identification may be by serial number or otherwise, but it must be sufficient to enable a subsequent manufacturer to ascertain positively that the document applies to a particular incomplete automobile even if the document is not attached to that automobile.

(iv) Fuel economy values determined by the incomplete automobile manufacturer for the automobile in accordance with 40 CFR part 600 and a statement that a fuel economy label containing those values has been prepared in accordance with Environmental Protection Agency regulation by the manufacturer identified in the document.

(v) Maximum curb weight that may not be exceeded by a subsequent manufacturer without invalidating the fuel economy values determined by the incomplete automobile manufacturer.

(vi) Maximum frontal area that may not be exceeded by a subsequent manufacturer without invalidating the fuel economy values determined by the incomplete automobile manufacturer.

(vii) Whether the fuel economy values have been computed with the road load horsepower set to take into account the presence of air conditioning.

(2) A fuel economy label conforming with 40 CFR part 600.

(c)(1) The incomplete automobile manufacturer shall either attach the document specified in paragraph (b)(1) of this section to the incomplete automobile in such a manner that it will not be inadvertently detached or send that document directly to the subsequent manufacturer to which that automobile is delivered.

(2)(i) If the incomplete automobile manufacturer places the portion of the
