that site must be made accessible or the program must be made available at an alternative accessible site or sites. Program accessibility requires nonpersonal aids to make the program accessible to mobility impaired persons.

(b) *Methods.* A recipient may comply with the requirements of paragraph (a) of this section through such means as redesign of equipment, reassignment of classes or other services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities in conformance with the requirement of §8b.19, or any other method that results in making its program or activity accessible to handicapped individuals. A recipient is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with paragraph (a) of this section. In choosing among available methods for meeting the requirement of paragraph (a) of this section, a recipient shall give priority to those methods that offer programs and activities to handicapped individuals in the most integrated setting appropriate.

(c) If a small recipient finds, after consultation with a qualified handicapped individual seeking its services, that there is no method of complying with paragraph (a) of this section other than making a significant alteration in its existing facilities or facility, the small recipient may, as an alternative, refer the qualified handicapped individual to other providers of those services that are accessible at no additional cost to the handicapped.

(d) *Time period.* A recipient shall comply with the requirement of paragraph (a) of this section within 60 days of the effective date of this part. Where structural changes in facilities are necessary, such changes shall be made within three years of the effective date of this part, but in any event as expeditiously as possible.

(e) *Transition plan.* In the event that structural changes to facilities are necessary to meet the requirement of paragraph (a) of this section, a recipient shall develop, within six months of the effective date of this part, a transi-

tion plan setting forth the steps necessary to complete such changes. The plan shall be developed with the assistance of interested persons, including handicapped persons or organizations representing handicapped persons. A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum:

(1) Identify physical obstacles in the recipient's facilities that limit the accessibility of its program or activity to qualified handicapped individuals;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve full program accessibility and, if the time period of the transition plan is longer than one year, identify the steps that will be taken during each year of the transition period; and

(4) Indicate the person responsible for implementation of the plan.

(f) *Notice.* The recipient shall adopt and implement procedures to ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of services, activities and facilities that are accessible to and usable by qualified handicapped individuals.

### §8b.18 New construction.

(a) *Design and construction.* Each facility or part of a facility constructed by, on behalf of, or for the use of a recipient shall be designed and constructed in such manner that the facility or part of the facility is readily accessible to and usable by qualified handicapped individuals, if the construction was commenced after the effective date of this part.

(b) *Alteration.* Each facility or part of a facility which is altered by, on behalf of, or for the use of a recipient after the effective date of this part of the facility shall, to the maximum extent feasible, be altered in such manner that the altered portion of the facility is readily accessible to and usable by qualified handicapped individuals.

(c) *Conformance with Uniform Federal Accessibility Standards.* (1) Effective as of August 17, 1990, design, construction, or alteration of buildings in conformance with sections 3-8 of the Uniform Federal Accessibility Standards (UFAS) (Appendix A to 41 CFR subpart 101-19.6) shall be deemed to comply with the requirements of this section with respect to those buildings. Departures from particular technical and scoping requirements of UFAS by the use of other methods are permitted where substantially equivalent or greater access to and usability of the building is provided.

(2) For purposes of this section, section 4.1.6(1)(g) of UFAS shall be interpreted to exempt from the requirements of UFAS only mechanical rooms and other spaces that, because of their intended use, will not require accessibility to the public or beneficiaries or result in the employment or residence therein of persons with physical handicaps.

(3) This section does not require recipients to make building alterations that have little likelihood of being accomplished without removing or altering a load-bearing structural member.

### Subpart D—Post Secondary Education

#### § 8b.19 Application of this subpart.

Subpart D applies to post secondary education programs and activities, including post secondary vocational education programs and activities, that receive or benefit from Federal financial assistance for the operation of, such programs or activities.

#### § 8b.20 Admission and recruitment.

(a) *General.* Qualified handicapped may not, on the basis of handicap, be denied admission or be subjected to discrimination in admission or recruitment by a recipient to which this subpart applies.

(b) *Admissions.* In administering its admission policies, a recipient to which this subpart applies:

(1) May not apply limitations upon the number or proportion of handi-

capped individuals who may be admitted; and

(2) May not make use of any test or criterion for admission that has a disproportionate, adverse effect on handicapped individuals or any class of handicapped individuals unless:

(i) The test or criterion, as used by the recipient, has been validated as a predictor of success in the education program or activity in question; and

(ii) Alternate tests or criteria that have a less disproportionate, adverse effect are not shown by the Secretary to be available.

(3) Shall assure itself that (i) admissions tests are selected and administered so as best to ensure that, when a test is administered to an applicant who has a handicap that impairs sensory, manual, or speaking skills, the test results accurately reflect the applicant's aptitude or achievement level of whatever other factor the test purports to measure, rather than reflecting the applicant's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure); (ii) admissions tests that are designed for persons with impaired sensory, manual, or speaking skills are offered as often and in as timely a manner as are other admissions tests; and (iii) admissions tests are administered in facilities that, on the whole, are accessible to handicapped individuals; and

(4) Except as provided in paragraph (c) of this section, may not make pre-admission inquiry as to whether an applicant for admission is a handicapped individual but, after admission, may make inquiries on a confidential basis as to handicaps that may require accommodation.

(c) *Pre-admission inquiry exception.* When a recipient is taking remedial action to correct the effects of past discrimination pursuant to § 8b.6(a) or when a recipient is taking voluntary action to overcome the effects of conditions that resulted in limited participation in its federally assisted program or activity pursuant to § 8b.6(b), the recipient may invite applicants for admission to indicate whether and to what extent they are handicapped, *Provided*, That:
