

(f) The term *class of appliance or equipment* means a group of appliances or equipment whose functions or features are similar, and whose functional output covers a range that may be of interest to consumers.

(g) The term *Specification* means a Voluntary Energy Conservation Specification developed under § 9.4.

(h) The term *Label* means printed matter affixed to or otherwise provided with appliances or equipment and meeting all the requirements called for in a Voluntary Energy Conservation Specification published under § 9.4(e).

[38 FR 29574, Oct. 26, 1973, as amended at 40 FR 33966, Aug. 13, 1975]

§ 9.3 Appliances and equipment included in program.

The appliances and equipment included in this program are room and central air conditioners, household refrigerators, home freezers, clothes washers, dishwashers, clothes dryers, kitchen ranges and ovens, water heaters, comfort heating equipment, and television receivers. Additional appliances and equipment may be included in the program by the Secretary pursuant to rule making procedures as set out in 5 U.S.C. 553. Individual units of appliances and equipment manufactured for export are not included in this program.

[38 FR 29574, Oct. 26, 1973, as amended at 40 FR 33966, Aug. 13, 1975]

§ 9.4 Development of voluntary energy conservation specifications.

(a) The Secretary in cooperation with appropriate Federal agencies and in cooperation with affected manufacturers, distributors, retailers, consumers, environmentalists, and other interested parties shall develop proposed Specifications for the specific classes of appliances and equipment covered under § 9.3.

(b) Each Specification shall as a minimum include:

(1) A description of the class of appliance or equipment covered by the Specification, listing the distribution of energy efficiencies for that class of appliance or equipment.

(2) Listings or descriptions of test methods to be used in measuring the energy consumption and/or energy effi-

ciency characteristics of the class of appliance or equipment.

(3) A prototype Label and directions for displaying the Label on or with appliances or equipment of that class. The Label shall be prominent, readable, and visible and shall include information that will assist the consumer in comparing by cost or otherwise the energy consumption and/or energy efficiency characteristics of a particular appliance or item of equipment with all others in its class. The Label shall also include the Department of Commerce Energy Conservation Mark specified in § 9.7.

(4) Conditions for the participation of manufacturers in the program.

(c) The test methods listed or described in the Specification pursuant to § 9.4(b)(2) shall be those described in existing nationally-recognized voluntary standards where such methods are appropriate. Where appropriate test methods do not so exist, they will be developed by the Department of Commerce in cooperation with interested parties.

(d) The Secretary upon development of a proposed Specification shall publish in the FEDERAL REGISTER a notice giving the complete text of the proposed Specification, and any other pertinent information, and inviting any interested person to submit written comments on the proposed Specification within 30 days after its publication in the FEDERAL REGISTER, unless another time limit is provided by the Secretary. Interested persons wanting to express their views in an informal hearing may do so if, within 15 days after the proposed Specification is published in the FEDERAL REGISTER, they request the Secretary to hold a hearing. Such informal hearings shall be held so as to give all interested persons opportunity for the oral presentation of data, views, or arguments in addition to the opportunity to make written submissions. Notice of such hearings shall be published in the FEDERAL REGISTER. A transcript shall be kept of any oral presentations.

(e) The Secretary, after consideration of all written and oral comments and other materials received in accordance with paragraph (d) of this section, shall
