

the various transactions and disclose the maximum variances in the pro forma financial information which would occur for any of the possible combinations. If the pro forma financial information is presented in a proxy or information statement for purposes of obtaining shareholder approval of one of the transactions, the effects of that transaction must be clearly set forth.

7. Tax effects, if any, of pro forma adjustments normally should be calculated at the statutory rate in effect during the periods for which pro forma condensed income statements are presented and should be reflected as a separate pro forma adjustment.

(c) *Periods to be presented.* (1) A pro forma condensed balance sheet as of the end of the most recent period for which a consolidated balance sheet of the registrant is required by § 210.3-01 shall be filed unless the transaction is already reflected in such balance sheet.

(2)(i) Pro forma condensed statements of income shall be filed for only the most recent fiscal year and for the period from the most recent fiscal year end to the most recent interim date for which a balance sheet is required. A pro forma condensed statement of income may be filed for the corresponding interim period of the preceding fiscal year. A pro forma condensed statement of income shall not be filed when the historical income statement reflects the transaction for the entire period.

(ii) For a business combination accounted for as a pooling of interests, the pro forma income statements (which are in effect a restatement of the historical income statements as if the combination had been consummated) shall be filed for all periods for which historical income statements of the registrant are required.

(3) Pro forma condensed statements of income shall be presented using the registrant's fiscal year end. If the most recent fiscal year end of any other entity involved in the transaction differs from the registrant's most recent fiscal year end by more than 93 days, the other entity's income statement shall be brought up to within 93 days of the registrant's most recent fiscal year end, if practicable. This updating could be accomplished by adding subsequent interim period results to the most recent fiscal year-end information and deducting the comparable preceding

year interim period results. Disclosure shall be made of the periods combined and of the sales or revenues and income for any periods which were excluded from or included more than once in the condensed pro forma income statements (e.g., an interim period that is included both as part of the fiscal year and the subsequent interim period). For investment companies subject to §§ 210.6-01 to 210.6-10, the periods covered by the pro forma statements must be the same.

(4) Whenever unusual events enter into the determination of the results shown for the most recently completed fiscal year, the effect of such unusual events should be disclosed and consideration should be given to presenting a pro forma condensed income statement for the most recent twelve-month period in addition to those required in paragraph (c)(2)(i) above if the most recent twelve-month period is more representative of normal operations.
