

§ 41.24

17 CFR Ch. I (4–1–03 Edition)

market or registered derivatives transaction execution facility shall submit to the Commission at its Washington, DC headquarters, either in electronic or hard-copy form, to be received by the Commission no later than the day prior to the initiation of trading, a filing that:

(1) Is labeled “Listing of Security Futures Product;”

(2) Includes a copy of the product’s rules, including its terms and conditions;

(3) Includes the certifications required by § 41.22;

(4) Includes a certification that the terms and conditions of the contract comply with the additional conditions for trading of § 41.25; and

(5) If the board of trade is a designated contract market pursuant to section 5 of the Act or a registered derivatives transaction execution facility pursuant to section 5a of the Act, it includes a certification that the security futures product complies with the Act and rules thereunder.

(b) *Voluntary submission of security futures products for Commission approval.* A designated contract market or registered derivatives transaction execution facility may request that the Commission approve any security futures product under the procedures of § 40.5 of this chapter, provided however that the registered entity shall include the certification required by § 41.22 with its submission under § 40.5 of this chapter. Notice designated contract markets may not request Commission approval of security futures products.

§ 41.24 Rule amendments to security futures products.

(a) *Self-certification of rules and rule amendments by designated contract markets and registered derivatives clearing organizations.* A designated contract market or registered derivatives clearing organization may implement any new rule or rule amendment relating to a security futures product by submitting to the Commission at its Washington, DC headquarters, either in electronic or hard-copy form, to be received by the Commission no later than the day prior to the implementation of the rule or rule amendment, a filing that:

(1) Is labeled “Security Futures Product Rule Submission;”

(2) Includes a copy of the new rule or rule amendment;

(3) Includes a certification that the designated contract market or registered derivatives clearing organization has filed the rule or rule amendment with the Securities and Exchange Commission, if such a filing is required; and

(4) If the board of trade is a designated contract market pursuant to section 5 of the Act or is a registered derivatives clearing organization pursuant to section 5b of the Act, it includes the documents and certifications required to be filed with the Commission pursuant to § 40.6 of this chapter, including a certification that the security futures product complies with the Act and rules thereunder.

(b) *Self-certification of rules by registered derivatives transaction execution facilities.* Notwithstanding § 37.7 of this chapter, a registered derivatives transaction execution facility may only implement a new rule or rule amendment relating to a security futures product if the registered derivatives transaction execution facility has certified the rule or rule amendment pursuant to the procedures of paragraph (a) of this section.

(c) *Voluntary submission of rules for Commission review and approval.* A designated contract market, registered derivatives transaction execution facility, or a registered derivatives clearing organization clearing security futures products may request that the Commission approve any rule or proposed rule or rule amendment relating to a security futures product under the procedures of § 40.5 of this chapter, provided however that the registered entity shall include the certifications required by § 41.22 with its submission under § 40.5 of this chapter. Notice designated contract markets may not request Commission approval of rules.

§ 41.25 Additional conditions for trading for security futures products.

(a) *Common provisions.* (1) *Reporting of data.* The designated contract market or registered derivatives transaction execution facility shall comply with

chapter 16 of this title requiring the daily reporting of market data.

(2) *Regulatory trading halts.* The rules of a designated contract market or registered derivatives transaction execution facility that lists or trades one or more security futures products must include the following provisions:

(i) Trading of a security futures product based on a single security shall be halted at all times that a regulatory halt has been instituted for the underlying security; and

(ii) Trading of a security futures product based on a narrow-based security index shall be halted at all times that a regulatory halt has been instituted for one or more underlying securities that constitute 50 percent or more of the market capitalization of the narrow-based security index.

(3) *Speculative position limits.* The designated contract market or registered derivatives transaction execution facility shall have rules in place establishing position limits or position accountability procedures for the expiring futures contract month. The designated contract market or registered derivatives transaction execution facility shall,

(i) Adopt a net position limit no greater than 13,500 (100-share) contracts applicable to positions held during the last five trading days of an expiring contract month; except where,

(A) For security futures products where the average daily trading volume in the underlying security exceeds 20 million shares, or exceeds 15 million shares and there are more than 40 million shares of the underlying security outstanding, the designated contract market or registered derivatives transaction execution facility may adopt a net position limit no greater than 22,500 (100-share) contracts applicable to positions held during the last five trading days of an expiring contract month; or

(B) For security futures products where the average daily trading volume in the underlying security exceeds 20 million shares and there are more than 40 million shares of the underlying security outstanding, the designated contract market or registered derivatives transaction execution facility may adopt a position account-

ability rule. Upon request by the designated contract market or registered derivatives transaction execution facility, traders who hold net positions greater than 22,500 (100-share) contracts, or such lower level specified by exchange rules, must provide information to the exchange and consent to halt increasing their positions when so ordered by the exchange.

(ii) For a security futures product comprised of more than one security, the criteria in paragraphs (a)(3)(i)(A) and (a)(3)(i)(B) of this section must apply to the security in the index with the lowest average daily trading volume.

(iii) Exchanges may approve exemptions from these position limits pursuant to rules that are consistent with § 150.3 of this chapter.

(iv) For purposes of this section, average daily trading volume shall be calculated monthly, using data for the most recent six-month period. If the data justify a higher or lower speculative limit for a security future, the designated contract market or registered derivatives transaction execution facility may raise or lower the position limit for that security future effective no earlier than the day after it has provided notification to the Commission and to the public under the submission requirements of § 41.24. If the data require imposition of a reduced position limit for a security future, the designated contract market or registered derivatives transaction execution facility may permit any trader holding a position in compliance with the previous position limit, but in excess of the reduced limit, to maintain such position through the expiration of the security futures contract; provided that the designated contract market or registered derivatives transaction execution facility does not find that the position poses a threat to the orderly expiration of such contract.

(b) *Final settlement prices for security futures products.* (1) The final settlement price of a cash-settled security futures product must fairly reflect the opening price of the underlying security or securities;

(2) Notwithstanding paragraph (b)(1) of this section, if an opening price for

§41.27

one or more securities underlying a security futures product is not readily available, the final settlement price of the security futures product shall fairly reflect:

(i) The price of the underlying security or securities during the most recent regular trading session for such security or securities; or

(ii) The next available opening price of the underlying security or securities.

(3) Notwithstanding paragraphs (b)(1) or (b)(2) of this section, if a derivatives clearing organization registered under Section 5b of the Act or a clearing agency exempt from registration pursuant to Section 5b(a)(2) of the Act, to which the final settlement price of a security futures product is or would be reported determines, pursuant to its rules, that such final settlement price is not consistent with the protection of customers and the public interest, taking into account such factors as fairness to buyers and sellers of the affected security futures product, the maintenance of a fair and orderly market in such security futures product, and consistency of interpretation and practice, the clearing organization shall have the authority to determine, under its rules, a final settlement price for such security futures product.

(c) *Special requirements for physical delivery contracts.* For security futures products settled by actual delivery of the underlying security or securities, payment and delivery of the underlying security or securities must be effected through a clearing agency that is registered pursuant to section 17A of the Securities Exchange Act of 1934.

(d) The Commission may exempt from the provisions of paragraphs (a)(2) and (b) of this section, either unconditionally or on specified terms and conditions, any designated contract market or registered derivatives transaction execution facility, if the Commission determines that such exemption is consistent with the public interest and the protection of customers. An exemption granted pursuant to this paragraph shall not operate as an exemption from any Securities and Exchange Commission rules. Any exemption that may be required from such rules must be obtained separately from

17 CFR Ch. I (4–1–03 Edition)

the Securities and Exchange Commission.

[66 FR 55083, Nov. 1, 2001, as amended at 67 FR 36761, May 24, 2002]

§41.27 Prohibition of dual trading in security futures products by floor brokers.

(a) *Definitions.* For purposes of this section:

(1) Trading session means hours during which a designated contract market or registered derivatives transaction execution facility is scheduled to trade continuously during a trading day, as set forth in its rules, including any related post settlement trading session. A designated contract market or registered derivatives transaction execution facility may have more than one trading session during a trading day.

(2) Member shall have the meaning set forth in section 1a(24) of the Act.

(3) Broker association includes two or more designated contract market or registered derivatives transaction execution facility members with floor trading privileges of whom at least one is acting as a floor broker who:

(i) Engage in floor brokerage activity on behalf of the same employer;

(ii) Have an employer and employee relationship which relates to floor brokerage activity;

(iii) Share profits and losses associated with their brokerage or trading activity; or

(iv) Regularly share a deck of orders.

(4) Customer means an account owner for which a trade is executed other than:

(i) An account in which such floor broker has any interest;

(ii) An account for which a floor broker has discretion;

(iii) An account controlled by a person with whom a floor broker has a relationship through membership in a broker association;

(iv) A house account of the floor broker's clearing member; or

(v) An account for another member present on the floor of a designated contract market or registered derivatives transaction execution facility or an account controlled by such other member.
