

(c) During the five year review of housing stock for formula purposes, the Section 8 units shall be reduced by the same percentage as the current assisted rental stock has diminished since September 30, 1999.

§ 1000.308 Who can make modifications to the IHBG formula?

HUD can make modifications in accordance with §1000.304 and §1000.306 provided that any changes proposed by HUD are published and made available for public comment in accordance with applicable law before their implementation.

§ 1000.310 What are the components of the IHBG formula?

The IHBG formula consists of two components:

- (a) Formula Current Assisted Housing Stock (FCAS); and
- (b) Need.

§ 1000.312 What is current assisted stock?

Current assisted stock consists of housing units owned or operated pursuant to an ACC. This includes all low rent, Mutual Help, and Turnkey III housing units under management as of September 30, 1997, as indicated in the Formula Response Form.

§ 1000.314 What is formula current assisted stock?

Formula current assisted stock is current assisted stock as described in §1000.312 plus 1937 Act units in the development pipeline when they become owned or operated by the recipient and are under management as indicated in the Formula Response Form. Formula current assisted stock also includes Section 8 units when their current contract expires and the Indian tribe continues to manage the assistance in a manner similar to the Section 8 program, as reported on the Formula Response Form.

§ 1000.316 How is the Formula Current Assisted Stock (FCAS) Component developed?

The Formula Current Assisted Stock component consists of two elements. They are:

(a) *Operating subsidy.* The operating subsidy consists of three variables which are:

(1) The number of low-rent FCAS units multiplied by the FY 1996 national per unit subsidy (adjusted to full funding level) multiplied by an adjustment factor for inflation;

(2) The number of Section 8 units whose contract has expired but had been under contract on September 30, 1997, multiplied by the FY 1996 national per unit subsidy adjusted for inflation; and

(3) The number of Mutual Help and Turnkey III FCAS units multiplied by the FY 1996 national per unit subsidy (adjusted to full funding level) multiplied by an adjustment factor for inflation.

(b) *Modernization allocation.* Modernization allocation consists of the number of Low Rent, Mutual Help, and Turnkey III FCAS units multiplied by the national per unit amount of allocation for FY 1996 modernization multiplied by an adjustment factor for inflation.

§ 1000.317 Who is the recipient for funds for current assisted stock which is owned by state-created Regional Native Housing Authorities in Alaska?

If housing units developed under the 1937 Act are owned by a state-created Regional Native Housing Authority in Alaska, and are not located on an Indian reservation, then the recipient for funds allocated for the current assisted stock portion of NAHASDA funds for the units is the regional Indian tribe.

§ 1000.318 When do units under Formula Current Assisted Stock cease to be counted or expire from the inventory used for the formula?

(a) Mutual Help and Turnkey III units shall no longer be considered Formula Current Assisted Stock when the Indian tribe, TDHE, or IHA no longer has the legal right to own, operate, or maintain the unit, whether such right is lost by conveyance, demolition, or otherwise, provided that:

- (1) Conveyance of each Mutual Help or Turnkey III unit occurs as soon as practicable after a unit becomes eligible for conveyance by the terms of the MHOA; and

§ 1000.320

(2) The Indian tribe, TDHE, or IHA actively enforce strict compliance by the homebuyer with the terms and conditions of the MHOA, including the requirements for full and timely payment.

(b) Rental units shall continue to be included for formula purposes as long as they continue to be operated as low income rental units by the Indian tribe, TDHE, or IHA.

(c) Expired contract Section 8 units shall continue as rental units and be included in the formula as long as they are operated as low income rental units as included in the Indian tribe's or TDHE's Formula Response Form.

§ 1000.320 How is Formula Current Assisted Stock adjusted for local area costs?

There are two adjustment factors that are used to adjust the allocation of funds for the Current Assisted Stock portion of the formula. They are:

(a) Operating Subsidy as adjusted by the greater of the AEL factor or FMR factor (AELFMR); and

(b) Modernization as adjusted by TDC.

§ 1000.322 Are IHA financed units included in the determination of Formula Current Assisted Stock?

No. If these units are not owned or operated at the time (September 30, 1997) pursuant to an ACC then they are not included in the determination of Formula Current Assisted Stock.

§ 1000.324 How is the need component developed?

After determining the FCAS allocation, remaining funds are allocated by need component. The need component consists of seven criteria. They are:

(a) American Indian and Alaskan Native (AIAN) Households with housing cost burden greater than 50 percent of formula annual income weighted at 22 percent;

(b) AIAN Households which are overcrowded or without kitchen or plumbing weighted at 25 percent;

(c) Housing Shortage which is the number of AIAN households with an annual income less than or equal to 80 percent of formula median income reduced by the combination of current

24 CFR Ch. IX (4-1-02 Edition)

assisted stock and units developed under NAHASDA weighted at 15 percent;

(d) AIAN households with annual income less than or equal to 30 percent of formula median income weighted at 13 percent;

(e) AIAN households with annual income between 30 percent and 50 percent of formula median income weighted at 7 percent;

(f) AIAN households with annual income between 50 percent and 80 percent of formula median income weighted at 7 percent;

(g) AIAN persons weighted at 11 percent.

§ 1000.325 How is the need component adjusted for local area costs?

The need component is adjusted by the TDC.

§ 1000.326 What if a formula area is served by more than one Indian tribe?

(a) If an Indian tribe's formula area overlaps with the formula area of one or more other Indian tribes, the funds allocated to that Indian tribe for the geographic area in which the formula areas overlap will be divided based on:

(1) The Indian tribe's proportional share of the population in the overlapping geographic area; and

(2) The Indian tribe's commitment to serve that proportional share of the population in such geographic area.

(3) In cases where a State recognized Indian tribe's formula area overlaps with a Federally recognized Indian tribe, the Federally recognized Indian tribe receives the allocation for the overlapping area.

(b) Tribal membership in the geographic area (not to include dually enrolled tribal members) will be based on data that all Indian tribes involved agree to use. Suggested data sources include tribal enrollment lists, Indian Health Service User Data, and Bureau of Indian Affairs data.

(c) If the Indian tribes involved cannot agree on what data source to use, HUD will make the decision on what data will be used to divide the funds between the Indian tribes by August 1.
