

of formula median income weighted at 7 percent;

(f) AIAN households with annual income between 50 percent and 80 percent of formula median income weighted at 7 percent;

(g) AIAN persons weighted at 11 percent.

§ 1000.325 How is the need component adjusted for local area costs?

The need component is adjusted by the TDC.

§ 1000.326 What if a formula area is served by more than one Indian tribe?

(a) If an Indian tribe's formula area overlaps with the formula area of one or more other Indian tribes, the funds allocated to that Indian tribe for the geographic area in which the formula areas overlap will be divided based on:

(1) The Indian tribe's proportional share of the population in the overlapping geographic area; and

(2) The Indian tribe's commitment to serve that proportional share of the population in such geographic area.

(3) In cases where a State recognized Indian tribe's formula area overlaps with a Federally recognized Indian tribe, the Federally recognized Indian tribe receives the allocation for the overlapping area.

(b) Tribal membership in the geographic area (not to include dually enrolled tribal members) will be based on data that all Indian tribes involved agree to use. Suggested data sources include tribal enrollment lists, Indian Health Service User Data, and Bureau of Indian Affairs data.

(c) If the Indian tribes involved cannot agree on what data source to use, HUD will make the decision on what data will be used to divide the funds between the Indian tribes by August 1.

§ 1000.327 What is the order of preference for allocating the IHBG formula needs data for Indian tribes in Alaska not located on reservations due to the unique circumstances in Alaska?

(a) Data in areas without reservations. The data on population and housing within an Alaska Native Village is credited to the Alaska Native Village. Accordingly, the village cor-

poration for the Alaska Native Village has no needs data and no formula allocation. The data on population and housing outside the Alaska Native Village is credited to the regional Indian tribe, and if there is no regional Indian tribe, the data will be credited to the regional corporation.

(b) Deadline for notification on whether an IHP will be submitted. By September 15 of each year, each Indian tribe in Alaska not located on a reservation, including each Alaska Native village, regional Indian tribe, and regional corporation, or its TDHE must notify HUD in writing whether it or its TDHE intends to submit an IHP. If an Alaska Native village notifies HUD that it does not intend either to submit an IHP or to designate a TDHE to do so, or if HUD receives no response from the Alaska Native village or its TDHE, the formula data which would have been credited to the Alaska Native village will be credited to the regional Indian tribe, or if there is no regional Indian tribe, to the regional corporation.

§ 1000.328 What is the minimum amount an Indian tribe can receive under the need component of the formula?

In the first year of NAHASDA participation, an Indian tribe whose allocation is less than \$50,000 under the need component of the formula shall have its need component of the grant adjusted to \$50,000. An Indian tribe's IHP shall contain a certification of the need for the \$50,000 funding. In subsequent years, but not to extend beyond Federal Fiscal Year 2002, an Indian tribe whose allocation is less than \$25,000 under the need component of the formula shall have its need component of the grant adjusted to \$25,000. The need for § 1000.328 will be reviewed in accordance with § 1000.306.

§ 1000.330 What are data sources for the need variables?

The sources of data for the need variables shall be data available that is collected in a uniform manner that can be confirmed and verified for all AIAN households and persons living in an identified area. Initially, the data used are U.S. Decennial Census data.
