

§ 58.5

binding document such as the certification contained on HUD Form 7015.15, certifying to the assumption of environmental responsibilities. When a State distributes funds to a responsible entity, the State must provide for appropriate procedures by which these responsible entities will evidence their assumption of environmental responsibilities.

(b) *Particular responsibilities of the States.* (1) States are recipients for purposes of directly undertaking a State project and must assume the environmental review responsibilities for the State's activities and those of any non-governmental entity that may participate in the project. In this case, the State must submit the certification and RROF to HUD for approval.

(2) States must exercise HUD's responsibilities in accordance with § 58.18, with respect to approval of a unit of local government's environmental certification and RROF for a HUD assisted project funded through the State, except for projects assisted by Section 17 Rental Rehabilitation assistance and Housing Development Grants. Approval by the State of a unit of local government's certification and RROF satisfies the Secretary's responsibilities under NEPA and the related laws cited in § 58.5.

(3) For section 17 Rental Rehabilitation projects and Housing Development Grants, the State agency shall meet the responsibilities set forth in § 58.18. However, for section 17 projects, the State lacks authority to approve RROFs and therefore must forward to the responsible HUD Field Office the local recipient's certification and RROF, any objections to the release of funds submitted by another party, and the State's recommendation as to whether HUD should approve the certification and the RROF.

§ 58.5 Related Federal laws and authorities.

In accordance with the provisions of law cited in § 58.1(b), the responsible entity must assume responsibilities for environmental review, decision-making and action that would apply to HUD under the following specified laws and authorities.
