

§ 500.411 Dealings abroad in commodities subject to the Regulations.

Section 500.204 prohibits the unlicensed importation into the United States of commodities of North Korean, North Vietnamese, Cambodian, or South Vietnamese origin. It also prohibits, unless licensed, persons subject to the jurisdiction of the United States from purchasing, transporting or otherwise dealing with such commodities which are outside the United States.

[41 FR 16554, Apr. 20, 1976]

§ 500.412 Process vs. manufacture.

A commodity subject to § 500.204 remains subject howsoever it has been processed. It should not be assumed that a commodity which has undergone operations other than those listed in § 500.204(a)(1), has become a manufactured form of the commodity rather than a processed form thereof. In case of question, a ruling should be requested from the Office of Foreign Assets Control. Requests for rulings in the form of license applications or otherwise should include adequate technical detail. It should be noted that it is quite possible for merchandise to have North Korea, North Viet-Nam, Cambodia, or South Viet-Nam as its "country of origin" for Foreign Assets Control purposes while having some other country as its "country of origin" for marking or statistical purposes.

[41 FR 16554, Apr. 20, 1976]

§ 500.413 Participation in certain development projects in Vietnam.

The following examples illustrate the scope of the authorization in § 500.576 for dealings in property in which Vietnam or a Vietnamese national has an interest with respect to development projects in Vietnam formally proposed or approved for execution, funding or sponsorship by a qualified international institution listed in appendix A to this part ("Qualified Projects").

Example # 1: The Government of Vietnam ("Vietnam") approaches a U.S. financial consulting firm (the "U.S. Consulting Firm") for advice on building cement plants in Hanoi and Ho Chi Minh City. The project might be eligible for funding by the Asian Development Bank (the "ADB"), and Viet-

nam wants the U.S. Consulting Firm's assistance in conducting a feasibility study for submission to the ADB. Since the project has not yet been formally proposed or approved for funding by the ADB, no involvement of the U.S. Consulting Firm is authorized pursuant to § 500.576. However, had the ADB formally proposed the project in its monthly *ADB Business Opportunities* as a project being considered for funding, or had it funded the feasibility study, § 500.576 would authorize the U.S. Consulting Firm's transactions.

Example # 2: Upon ADB approval of funding for the cement plant project, a U.S. company (the "U.S. Company") forms a joint venture with a Vietnamese company to bid on construction of the cement plants in Hanoi and Ho Chi Minh City. The joint venture's bid is successful, and it purchases construction equipment from the United States, financed by a U.S. bank and insured by a U.S. company. Several items are sourced from the United States during construction, including cement equipment, which is covered by a ten-year service and maintenance agreement. The joint venture agreement calls for the continued management and operation of the plants by the U.S. Company after completion, and for the insurance of the plants by a U.S. insurance company. Each of these transactions with respect to the Qualified Project is authorized by § 500.576.

Example # 3: The International Finance Corporation ("IFC") offers equity investment in a Vietnamese company to finance environmental safeguards for drilling operations in offshore oil fields. Various U.S. investors, including venture capital companies, brokerage firms, and investment banks contribute capital and receive shares in the Vietnamese company. This equity investment in a Qualified Project is authorized by § 500.576. The U.S. companies purchasing these shares as part of the IFC-sponsored development project may hold or resell them, including resale to other persons subject to U.S. jurisdiction. Shares acquired by entities not subject to U.S. jurisdiction may not then be purchased or repurchased by a person subject to U.S. jurisdiction.

Example # 4: (a) An Indonesian company (the "Contractor") is a successful bidder on a Qualified Project, and hires a U.S. law firm to represent it in contract negotiations with Vietnam to build a fish processing and canning facility in Vietnam funded by the World Bank. The law firm may represent the Contractor throughout the course of the project pursuant to § 500.576, once the project has been formally proposed or approved for funding by the World Bank.

(b) Once the Qualified Project is underway, the Contractor purchases equipment manufactured in France by a French company. The long-term servicing of the equipment, however, will
