GENERAL INFORMATION FOR INVENTORY PREPARERS

§51.1 Who is responsible for actions described in this subpart?

State agencies whose geographic coverage include any point, area, mobile, or biogenic sources must inventory these sources and report this information to EPA.

§51.5 What tools are available to help prepare and report emissions data?

We urge your State to use estimation procedures described in documents from the Emission Inventory Improvement Program (EIIP). These procedures are standardized and ranked according to relative uncertainty for each emission estimating technique. Using this guidance will enable others to use your State's data and evaluate its quality and consistency with other data.

§51.10 How does my State report emissions that are required by the NO_x SIP Call?

The States and the District of Columbia that are subject to the NO_x SIP Call (§51.121) should report their emissions under the provisions of §51.122. To avoid confusion, these requirements are not repeated here.
