

## Relocation Allowances

## § 302-17.8

status. The Puerto Rico marginal tax rate for Year 1 will be used in computing the CMTR for both Year 1 and Year 2. The Puerto Rico tax tables are contained in appendix D of this part.

(B) If the applicable Puerto Rico marginal tax rate is higher than the applicable Federal marginal tax rate, then the total amount of taxes paid by the employee to both jurisdictions is equal to the employee's total income tax liability to the Commonwealth of Puerto Rico before any credit is given for taxes paid to the United States. The Federal marginal tax rate, therefore, is of no consequence and will be disregarded. In such cases, the formula in paragraph (e)(5)(iii) of this section will be used to compute the CMTR. The CMTR formula shall include only the Puerto Rico marginal tax rate, the State marginal tax rate as determined under paragraph (e)(2) of this section (when applicable), and the local marginal tax rate as determined under paragraph (e)(3) of this section. For purposes of applying the Puerto Rico CMTR formula in paragraph (e)(5)(iii) of this section, the State marginal tax rate will be applicable if both Puerto Rico and one or more of the States impose an income tax on the moving expense reimbursement, and more than one of these entities taxes the same portion of the reimbursement without allowing an adjustment or credit for income taxes paid to the other. In this situation, the S component of the CMTR formula will be the applicable State marginal tax rate as determined under paragraph (e)(2) of this section.

(C) If the applicable Puerto Rico marginal tax rate is equal to or lower than the applicable Federal marginal tax rate, then the total amount of taxes paid by the employee to both jurisdictions is equal to the employee's total Federal income tax liability. The Puerto Rico marginal tax rate, therefore, is of no consequence in such cases and will be disregarded. The CMTR will be computed using the formula in paragraphs (e)(5) (i) and (ii) of this section. This formula will include the Federal marginal tax rate as determined under paragraph (e)(1) of this section, the State marginal tax rate as determined under paragraph (e)(2) of this section (when applicable), and the local mar-

ginal tax rate as determined under paragraph (e)(3) of this section. The State marginal tax rate will be applicable if one or more States impose tax on the moving expense reimbursement.

(ii) *The Commonwealth of the Northern Mariana Islands and the U.S. possessions.* A Federal employee who is relocated to or from a point, or between points, in the Commonwealth of the Northern Mariana Islands or the U.S. possessions (Guam, American Samoa, and the U.S. Virgin Islands) is subject to both Federal income tax and income tax assessed by the Commonwealth of the Northern Mariana Islands or the U.S. possession, as applicable. However, the income tax system and rates for the Commonwealth of the Northern Mariana Islands and for the U.S. possessions are identical to the U.S. Federal income tax system and rates. This constitutes a "mirror tax" system. A tax credit or exclusion is provided by one of the taxing jurisdictions (either the U.S., the Commonwealth of the Northern Mariana Islands, or the U.S. possession, as appropriate) to prevent double taxation. The marginal tax rate for the Commonwealth of the Northern Mariana Islands or the U.S. possession, therefore, is of no consequence since it is identical to the Federal marginal income tax rate and is completely offset by a corresponding credit or exclusion. Thus, the Commonwealth's or the possession's tax rate will not be factored into the CMTR formula. The CMTR will be computed as provided in paragraphs (e)(5) (i) and (ii) based solely on the Federal marginal tax rate; when applicable, the State(s) marginal tax rate; and the local marginal tax rate.

(5) *Calculation of the CMTR's.* As stated above, the gross-up formula for calculating the RIT allowance requires the use of two CMTR's. However, the required CMTR's cannot be calculated by merely adding the Federal, State, and local marginal tax rates together because of the deductibility of State and local income taxes from income for Federal income tax purposes. The State tax tables prescribed in appendix B of this part are designed to use the same income amount as that determined for the Federal taxes, which reflects, among other things, State and
