§ 3712.2-3 Contents of published notice.

Section 5(a) of the Act specifies in detail what the published notice shall contain, as follows:

Such notice shall describe the lands covered by such request, as provided heretofore, and shall notify whomever it may concern that if any person claiming or asserting under, or by virtue of, any unpatented mining claim heretofore located, rights as to such lands or any part thereof, shall fail to file in the office where such request for publication was filed (which office shall be specified in such notice) and within one hundred and fifty days from the date of the first publication of such notice (which date shall be specified in such notice), a verified statement which shall set forth, as to such unpatented mining claim—

- (1) The date of location;
- (2) The book and page of recordation of the notice or certificate of location;
- (3) The section or sections of the public land surveys which embrace such mining claims; or if such lands are unsurveyed, either the section or sections which would probably embrace such mining claim when the public land surveys are extended to such lands or a tie by courses and distances to an approved United States mineral monument;
- (4) Whether such claimant is a locator or purchaser under such location; and
- (5) The name and address of such claimant and names and addresses so far as known to the claimant of any other person or persons claiming any interest or interests in or under such unpatented mining claim: such failure shall be conclusively deemed (i) to constitute a waiver and relinquishment by such mining claimant of any right, title or interest under such mining claim contrary to or in conflict with the limitations or restrictions specified in section 4 of this Act as to hereafter located unpatented mining claims, and (ii) to constitute a consent by such mining claimant that such mining claim, prior to issuance of patent therefor, shall be subject to the limitations and restrictions specified in section 4 of this Act as to hereafter located unpatented mining claims, and (iii) to preclude thereafter, prior to issuance of patent, any assertion by such mining claimant of any right or title to or interest in or under such mining claim contrary to or in conflict with the limitations or restrictions specified in section 4 of this Act as to hereafter located unpatented mining claims.
