§ 284.20 What information will we use to determine the child poverty rate in each State?

(a) *General.* We will determine the child poverty rate in each State based on estimates from either the Census Bureau or the State, as described in this section. (2) In 2000, and annually thereafter, we will determine for each State, at the 90-percent confidence level, the percentage change in the child poverty rate and provide this information to the State. The determination of percentage change in 2000 will cover the change between calendar years 1996 and 1997.

(c) *Estimates from the State.* (1) As an alternative to the Census Bureau estimates provided to the State under paragraph (b) of this section, the State may provide to us data on child poverty in the State derived from an independent source.
