

prior to the day the application or notification for the booster station is filed. A booster station shall not be required to protect from interference facilities proposed on or after the day the application or notification for the booster station is filed.

(g) Where an application is granted under paragraph (d) of this section, if a facility operated pursuant to that grant causes harmful, unauthorized interference to any cochannel or adjacent channel facility, it must promptly remedy the interference or immediately cease operations of the interfering facility, regardless of whether any petitions to deny or for other relief were filed against the application during the application process. The burden of proving that a high-power MDS signal booster station is not causing harmful, unauthorized interference lies on the licensee of the alleged interfering facility, following the filing of a documented complaint of interference by an affected party.

(h) In the event any MDS or ITFS receive site suffers interference due to block downconverter overload, the licensee of each non-co/adjacent channel signal booster station within five miles of such receive site shall cooperate in good faith to expeditiously identify the source of the interference. Each licensee of a signal booster station contributing to such interference shall bear the joint and several obligation to remedy promptly all interference resulting from block downconverter overload at any ITFS registered receive site or at any receive site within an MDS or ITFS protected service area applied for prior to the submission of the application or notification for the signal booster station, regardless of whether the receive site suffering the interference was constructed prior to or after the construction of the signal booster station(s) causing the downconverter overload; provided, however, that the licensee of the registered ITFS receive site or the MDS or ITFS protected service area must cooperate fully and in good faith with efforts by signal booster station licensees to prevent interference before constructing the signal booster station and/or to remedy interference that may occur. In the event that more than one

signal booster station licensee contributes to block downconverter interference at an MDS or ITFS receive site, such licensees shall cooperate in good faith to remedy promptly the interference.

[63 FR 65109, Nov. 25, 1998; 64 FR 4054, Jan. 27, 1999, as amended at 64 FR 63736, Nov. 22, 1999; 65 FR 46619, July 31, 2000]

EFFECTIVE DATE NOTE: At 65 FR 46619, July 31, 2000, §24.913 was amended by revising paragraphs (b) introductory text, (b)(8), and (e)(4)(ix). These paragraphs contain information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

§ 21.914 Mutually-exclusive MDS applications.

Notwithstanding the provisions of § 21.31 (b)(2)(i) and (ii) of this part, to be entitled to be included in a random selection process or to comparative consideration with one or more conflicting applications, an application for frequencies at 2150-2162 MHz, 2596-2644 MHz, 2650-2656 MHz, 2662-2668 MHz, or 2674-2680 MHz must be received by the Commission in a condition acceptable for filing on the same calendar day as the first of the conflicting applications is received by the Commission in a condition acceptable for filing.

[55 FR 46012, Oct. 31, 1990, as amended at 56 FR 57819, Nov. 14, 1991]

§ 21.915 One-to-a-market requirement.

Each applicant may file only a single Multipoint Distribution Service application for the same channel or channel group in each area. The stockholders, partners, owners, trustees, beneficiaries, officers, directors, or any other person or entity holding, directly or indirectly, any interest in one applicant or application for an area and channel or channel group, must not have any interest, directly or indirectly, in another applicant or application for that same area and channel or channel group.

[58 FR 11799, Mar. 1, 1993]

§ 21.920 Applicability of cable television EEO requirements to MDS and MMDS facilities.

Notwithstanding other EEO provisions within § 1.815 of this chapter and

§ 21.921

§ 21.307, an entity that uses an owned or leased MDS, MMDS and/or ITFS facility to provide more than one channel of video programming directly to the public must comply with the equal employment opportunity requirements set forth in part 76, subparts E and U of this chapter, if such entity exercises control (as defined in part 76, subparts E and U of this chapter) over the video programming it distributes.

[58 FR 42249, Aug. 9, 1993, as amended at 65 FR 53614, Sept. 5, 2000]

§ 21.921 Basis and purpose for electronic filing and competitive bidding process.

(a) Basis. The rules for competitive bidding procedures for the Multipoint Distribution Service (MDS) in this part are promulgated under the provisions of the Communications Act of 1934, as amended, which vests authority in the Federal Communications Commission to regulate radio transmission and to issue licenses for radio stations, and § 309(j) of the Act, which vests authority in the Commission to conduct competitive bidding.

(b) Purpose. This part states the conditions under which portions of the radio spectrum are made available and licensed for Multipoint Distribution Service via the competitive bidding procedures.

(c) Scope. The rules in this part apply only to authorizations and station licenses granted under the competitive bidding procedures of this section. This subpart contains some of the procedures and requirements for the issuance of authorizations to construct and operate multipoint distribution services. One also should consult part 1, subpart Q of the Commission's rules, §§ 21.1 through 21.406 and 21.900 through 21.920 of this part, and other Commission rules of importance with respect to the licensing and operation of MDS stations.

[60 FR 36554, July 17, 1995]

§ 21.922 Authorized frequencies.

The frequencies in the MDS service through the competitive bidding process are in the frequency allocations table of § 21.901 of this part.

[60 FR 36555, July 17, 1995]

§ 21.923 Eligibility.

Any individual or entity, other than those precluded by §§ 21.4 and 21.912 of this part, is eligible to receive a Basic Trading Area (BTA) authorization and a station license for each individual MDS station within the BTA. There is no restriction on the number of BTA authorizations or MDS station licenses, including multiple cochannel station licenses, sought by or awarded to a qualified individual or entity.

[60 FR 36555, July 17, 1995]

§ 21.924 Service areas.

(a) MDS service areas are regional Basic Trading Areas (BTAs) which are based on the Rand McNally 1992 Commercial Atlas & Marketing Guide, 123rd Edition, at pages 38–39. The BTA Map is available for public inspection at the Reference Information Center, Consumer and Governmental Affairs Bureau, Federal Communications Commission, 445 12th Street, SW, Washington, DC 20554.

(b) The following additions will be available for licensing separately as BTA-like areas: American Samoa; Guam; Northern Mariana Islands; San Juan, Puerto Rico; Mayagüez/Agua-dilla-Ponce, Puerto Rico; and the United States Virgin Islands.

(c) The area within the boundaries of a BTA to which a BTA authorization holder may provide Multipoint Distribution Service excludes the protected service areas of any incumbent MDS stations and previously proposed and authorized ITFS facilities, including registered receive sites.

[60 FR 36555, July 17, 1995, as amended at 60 FR 57367, Nov. 15, 1995; 64 FR 60726, Nov. 8, 1999; 67 FR 13225, Mar. 21, 2002]

§ 21.925 Applications for BTA authorizations and MDS station licenses.

(a)(1) An applicant must file a short-form application and, when necessary, the short-form application supplement, identifying each BTA service authorization sought.

(2) For purposes of conducting competitive bidding procedures, short-form applications are considered to be mutually exclusive with each other if they were filed for, and specified, the same BTA service area.
