

7.203

(b) Each solicitation for a contract for supplies is required, if practicable, to include a provision inviting each offeror responding to the solicitation (1) to state an opinion on whether the quantity of the supplies proposed to be acquired is economically advantageous to the Government, and (2) if applicable, to recommend a quantity or quantities which would be more economically advantageous to the Government. Each such recommendation is required to include a quotation of the total price and the unit price for supplies procured in each recommended quantity.

7.203 Solicitation provision.

Contracting officers shall insert the provision at 52.207-4, Economic Purchase Quantity—Supplies, in solicitations for supplies. The provision need not be inserted if the solicitation is for a contract under the General Services Administration's multiple award schedule contract program, or if the contracting officer determines that (a) the Government already has the data, (b) the data is otherwise readily available, or (c) it is impracticable for the Government to vary its future requirements.

[52 FR 30076, Aug. 12, 1987]

7.204 Responsibilities of contracting officers.

(a) Contracting officers are responsible for transmitting offeror responses to the solicitation provision at 52.207-4 to appropriate inventory management/requirements development activities in accordance with agency procedures. The economic purchase quantity data so obtained are intended to assist inventory managers in establishing and evaluating economic order quantities for supplies under their cognizance.

(b) In recognition of the fact that economic purchase quantity data furnished by offerors are only one of many data inputs required for determining the most economical order quantities, contracting officers should generally take no action to revise quantities to be acquired in connection with the instant procurement. However, if a significant price variation is evident from offeror responses, and the potential for significant savings is apparent, the

48 CFR Ch. 1 (10-1-03 Edition)

contracting officer shall consult with the cognizant inventory manager or requirements development activity before proceeding with an award or negotiations. If this consultation discloses that the Government should be ordering an item of supply in different quantities and the inventory manager/requirements development activity concurs, the solicitation for the item should be amended or canceled and a new requisition should be obtained.

Subpart 7.3—Contractor Versus Government Performance

7.300 Scope of subpart.

This subpart prescribes policies and procedures for use in acquisitions of commercial or industrial products and services subject to (a) OMB Circular No. A-76 (Revised) (the Circular), Performance of Commercial Activities, and (b) the Supplement to the Circular.

[57 FR 60575, Dec. 21, 1992]

7.301 Policy.

The Circular provides that it is the policy of the Government to (a) rely generally on private commercial sources for supplies and services, if certain criteria are met, while recognizing that some functions are inherently Governmental and must be performed by Government personnel, and (b) give appropriate consideration to relative cost in deciding between Government performance and performance under contract. In comparing the costs of Government and contractor performance, the Circular provides that agencies shall base the contractor's cost of performance on firm offers.

7.302 General.

The Circular and the Supplement—

(a) Prescribe the overall policies and detailed procedures required of all agencies in making cost comparisons between contractor and Government performance. In making cost comparisons, agencies shall—

(1) Prepare an estimate of the cost of Government performance based on the same work statement and level of performance as apply to offerors; and

(2) Compare the total cost of Government performance to the total cost of

contracting with the potentially successful offeror.

(b) Provide that solicitations and synopses of the solicitations issued to obtain offers for comparison purposes shall state that they will not result in a contract if Government performance is determined to be more advantageous (see the solicitation provisions at 52.207-1 and 52.207-2);

(c) Provide that each cost comparison shall be reviewed by an activity independent of the activity which prepared the cost analysis to ensure conformance with the instructions in the Supplement; and

(d) Provide that, ordinarily, agencies should not incur the delay and expense of conducting cost comparison studies when the full-time equivalent Government employees involved are fewer than those specified by law, the Circular, and implementing agency guidance. Cost comparisons may be conducted in these instances if there is reason to believe that commercial prices are unreasonable.

[50 FR 35475, Aug. 30, 1985, as amended at 53 FR 17856, May 18, 1988; 55 FR 25526, June 21, 1990; 57 FR 60575, Dec. 21, 1992]

7.303 Determining availability of private commercial sources.

(a) During acquisition planning reviews, contracting officers must assist in identifying private commercial sources.

(b) In making all reasonable efforts to identify such sources, the contracting officer must assist in—

(1) Synopsizing the requirement through the Governmentwide point of entry (GPE) in accordance with 5.205(e) until a reasonable number of potential sources are identified. If necessary, a synopsis must be submitted up to three times in a 90-day period with a minimum of 30 days between notices (but, when necessary to meet an urgent requirement, this notification may be limited to a total of two notices in a 30-day period with a minimum of 15 days between them); and

(2) Requesting assistance from the Small Business Administration, the Department of Commerce, and the General Services Administration.

(3) If sufficient sources are not identified through synopses or from sub-

paragraph (b)(2) of this section, a finding that no commercial source is available may be made and the cost comparison canceled.

[48 FR 42124, Sept. 19, 1983, as amended at 55 FR 25526, June 21, 1990; 57 FR 60575, Dec. 21, 1992; 66 FR 27412, May 16, 2001]

7.304 Procedures.

(a) *Work statement.* When private commercial sources are available and a cost comparison is required, the Government's functional managers responsible for the comparison or another group shall prepare a comprehensive, performance work statement. The work statement must—

(1) Accurately reflect the actual Government requirement, stating adequately *what* is to be done without prescribing *how* it is to be done;

(2) Include performance standards that can be used to ensure a comparable level of performance for both Government and contractor and a common basis for evaluation; and

(3) Be reviewed by the contracting officer to ensure that it is adequate and appropriate to serve as a basis for solicitation and award.

(b) *Cost estimate.* The agency personnel who develop the cost estimate for Government performance—

(1) Enter on a cost comparison form (see Part IV of the Supplement) the cost estimate and the other elements required to accomplish a cost comparison;

(2) Review the estimate for completeness and accuracy and have the estimate audited; and

(3) Submit to the contracting officer the completed form and all necessary detailed supporting data in a sealed, dated envelope, or electronic equivalent, not later than the time established for receipt of initial proposals or bid opening. If more time is needed to develop the Government's cost estimate, the contracting officer shall amend the opening date of the solicitation.

(c) *Solicitation.* (1) The contracting officer shall issue a solicitation based on the performance work statement prepared in accordance with paragraph (a) of this section. Prepriced option prices in existing contracts will not be used instead of issuing a new solicitation
