

aircraft or any component thereof (including demonstrations at airshows), provided no persons, cargo or mail are carried for remuneration or hire.

§ 375.32 Flights incidental to agricultural and industrial operations outside the United States.

Foreign civil aircraft that are engaged in agricultural or industrial operations to be performed wholly outside the United States may be navigated into, out of, and within the United States in connection with those operations provided that the aircraft is not at the time engaged in the carriage of passengers, cargo, or mail for remuneration or hire.

§ 375.33 Transit flights, irregular operations.

Foreign civil aircraft carrying passengers, property or mail for remuneration or hire, but not engaged in scheduled international air services, are authorized to navigate nonstop across the territory of the United States and to make stops for non-traffic purposes. The navigation of foreign civil aircraft in the United States is not authorized under this section when the elapsed time between landing and takeoff at a stop in the United States exceeds 24 hours and passengers are permitted to leave the airport or when passengers, property or mail are transferred to another aircraft. Flights involving stops under such circumstances may, however, be performed in the case of emergency relating to the safety of the aircraft, passengers, cargo or crew.

§ 375.34 Indoctrination training.

Foreign civil aircraft may be operated in the United States for the purpose of giving indoctrination training in the operation of the aircraft concerned to a buyer or a buyer's employees or designees. This section does not, however, authorize foreign civil aircraft to be used within the United States for the purpose of flight instruction for remuneration or hire.

§ 375.35 Free transportation.

(a) Foreign civil aircraft may be navigated in the United States by a foreign air carrier for the transportation of persons and property specified

in paragraph (b) of this section over the following non-traffic segments provided such transportation is not for compensation or hire:

(1) Between two or more points in the United States;

(2) Between a point in the United States named in the carrier's section 402 permit or exemption, and a point outside the United States not so named, when authorized in accordance with the provisions of part 216 of this chapter to carry blind sector traffic to or from such unnamed foreign point; and

(3) Between a point in the United States and a point outside thereof when the carrier lands at the United States point for non-traffic purposes in exercise of the privilege granted under the International Air Services Transit Agreement.

(b) Free transportation may be provided under this section for the following categories of persons and property:

(1) Directors, officers and employees, and their parents and immediate families, of the foreign air carrier operating the aircraft;

(2) Directors, officers and employees, and their parents and immediate families, of an air carrier or another foreign air carrier traveling pursuant to a pass interchange arrangement;

(3) Travel agents being transported for the purpose of familiarizing themselves with the carrier's services, if the agents are under no obligation to sell the transporting carrier's services;

(4) Witnesses and attorneys attending any legal investigation in which any such foreign air carrier is involved;

(5) Persons injured in aircraft accidents and physicians and nurses attending such persons;

(6) Any persons or property with the object of providing relief in cases of general epidemic, natural disaster or other catastrophe;

(7) Any person who has the duty of guarding foreign government officials travelling on official business; and

(8) Guests of a foreign air carrier (including members of the press) on delivery flights of newly-acquired or newly-renovated aircraft.

§ 375.36

(c) A charge reasonably related to the value of meals and beverages furnished enroute shall not be deemed to constitute compensation or hire for purposes of this section.

§ 375.36 Lease of foreign civil aircraft without crew.

Foreign civil aircraft that are leased without crew to an air carrier or citizen or permanent resident of the United States, and used by the lessee in otherwise authorized air transportation or commercial air operations, may be operated into, out of, and within the United States in accordance with any applicable regulations prescribed by the Federal Aviation Administration.

Subpart E—Operations Requiring Specific Preflight Authorization of Filing

§ 375.40 Permits for commercial air operations.

(a) *Permit required.* Except for aircraft being operated under a foreign air carrier permit, an exemption, or as otherwise provided in Subpart D or H of this part, foreign civil aircraft may engage in commercial air operations only if there is carried on board the aircraft a permit issued by the Department in accordance with this subpart authorizing the operations involved.

(b) Aircraft are not authorized to engage in air transportation under this section. Where an operation involves the carriage of persons, property or mail for compensation or hire, the Department will determine whether particular flights for which a permit is sought will be in common carriage, and therefore in air transportation, based on all the facts and circumstances surrounding the applicant's entire operations. The burden rests upon the applicant in each instance to demonstrate by an appropriate factual showing that the contemplated operation will not constitute common carriage from, to or within the United States. In general, an applicant that holds itself out to the public, or to a particular class or segment, as willing to furnish transportation for hire is a common carrier.

14 CFR Ch. II (1–1–03 Edition)

§ 375.41 Agricultural and industrial operations within the United States.

Foreign civil aircraft shall not be used for such commercial air operations as crop dusting, pest control, pipeline patrol, mapping, surveying, banner towing, skywriting or similar agricultural or industrial operations within the United States, including its territorial waters and overlying airspace, unless a permit has been issued by the Department and the operation is conducted in accordance with all applicable State and local laws and regulations as well as the applicable provisions of this part.

§ 375.42 Transport operations—occasional planeload charters.

Occasional planeload charters may be authorized where, because of their limited nature and extent, special equipment or facilities utilized, or other circumstances pertaining to them, it appears that they are not within the scope of the applicant's normal holding out of transportation services to the general public. Such charters are normally limited to those in which the entire capacity of the aircraft is engaged by a single charterer, and since they are occasional in nature, should not exceed for any one applicant more than six flights during a calendar year. This part does not authorize operations that involve solicitation of the general public such as is usually involved in the transportation of individually-ticketed passengers or individually-waybilled cargo, or in which the charterer is a travel agent, a charter operator, a broker, an air freight forwarder or any other organization that holds itself out to the general public to provide transportation services. Carriage of cargo for the operator's own account is governed by the provisions of this section if the cargo is to be resold or otherwise used in the furtherance of a business other than the business of providing carriage by aircraft.

§ 375.43 Application for foreign aircraft permit.

(a) Applications for foreign aircraft permits shall be submitted on OST Form 4509, (Appendix A), in duplicate,
