

§ 752.1

§ 752.1 Scope.

(a)(1) *Introduction.* In this part, references to the EAR are references to 15 CFR chapter VII, subchapter C. This part describes the provisions of the Special Comprehensive License (SCL). You may apply for an SCL, when appropriate, in lieu of a license described in part 748 of the EAR, or a License Exception described in part 740 of the EAR, for multiple exports and reexports of items subject to the EAR. The SCL provides authorization to make specified exports and reexports that are otherwise prohibited by General Prohibitions One, Two, and Three described in part 736 of the EAR. The existence of an SCL does not supersede an exporter's obligation to request a separate license as may be required by part 744 of the EAR. Because the Bureau of Industry and Security (BIS) does not review each individual transaction authorized by an SCL, parties to the SCL must have the mechanisms in place to ensure that each export and reexport made under an SCL meets all the terms and conditions of the license and are in accordance with all applicable provisions of the EAR. It is through the design and effective implementation of an Internal Control Program (ICP) that the SCL holder and the SCL consignee (referred to as "consignee" for purposes of this part) assure that exports and reexports are not made contrary to the EAR.

(2) *Definitions*—(i) *SCL holder.* As used in this part, "SCL holder" is that party approved on an SCL to perform activities approved under the SCL.

(ii) *SCL consignee.* As used in this part, "SCL consignee" or "consignee" means any party authorized to receive items under the SCL and named as a consignee on an approved Form BIS-752, Statement by Consignee in Support of Special Comprehensive License.

(b) *ICP requirement.* To qualify for an SCL, you must develop an ICP. Section 752.11 of this part includes a general description of the elements of the ICP, and guidance on which elements your company must implement before making shipments under the SCL. The elements of the ICP your company will develop reflect the complexity of the activities authorized under the SCL, the countries and items involved, and

the relationship between the SCL holder and the approved consignees. BIS may require you to include in your ICP any combination of elements, depending upon the nature of your SCL application. During your pre-application consultation required by § 752.5(a)(1), BIS will provide you guidance on which elements you must implement.

§ 752.2 Eligible activities.

(a) *Possible authorizations.* Under the SCL, BIS may authorize you to perform any number of activities, which can be grouped under the general categories of "service", "end-user", "distribution" and "other" activities. Examples of the general categories include:

(1) *Service activities.* Exporting items subject to the EAR as spare and replacement parts for servicing or stocking.

(2) *End-user activities.* Exporting and reexporting items subject to the EAR for use as capital equipment.

(3) *Distribution activities.* Exporting and reexporting items subject to the EAR for the purpose of resale and reexport by consignees.

(4) *Other activities.* Other activities not included in paragraphs (a)(1) through (a)(3) of this section may be authorized by BIS under the SCL on a case-by-case basis.

(b) *Prohibited activities.* The general prohibitions described in § 736.2(b)(4) through (10) of the EAR apply to all exports and reexports by, and conduct of, all parties approved on your SCL, unless you are specifically authorized under the SCL to perform such activities, or the particular activity otherwise qualifies for a License Exception described in part 740 of the EAR.

§ 752.3 Eligible items.

(a) All items subject to the EAR, including items eligible for License Exceptions described in part 740 of the EAR, are eligible for export and reexport under the SCL, except:

(1) Items controlled for missile technology reasons that are identified by the letters MT in the applicable "Reason for Control" paragraph on the
