

§922.153

a Sanctuary resource or quality resulting from an untoward incident, including but not limited to spills and groundings caused by the Department of Defense, the Department of Defense shall promptly coordinate with the Director for the purpose of taking appropriate actions to respond to and mitigate the harm and, if possible, restore or replace the Sanctuary resource or quality.

(e) The prohibitions in paragraphs (a) (2) through (7) of this section do not apply to any activity executed in accordance with the scope, purpose, terms and conditions of a National Marine Sanctuary permit issued pursuant to §922.48 and §922.153 or a Special Use permit issued pursuant to section 310 of the Act.

(f) Members of a federally recognized Indian tribe may exercise aboriginal and treaty-secured rights, subject to the requirements of other applicable law, without regard to the requirements of this part. The Director may consult with the governing body of a tribe regarding ways the tribe may exercise such rights consistent with the purposes of the Sanctuary.

(g) The prohibitions in paragraphs (a) (2) through (7) of this section do not apply to any activity authorized by any lease, permit, license, or other authorization issued after July 22, 1994 and issued by any Federal, State or local authority of competent jurisdiction, provided that the applicant complies with §922.49, the Director notifies the applicant and authorizing agency that he or she does not object to issuance of the authorization, and the applicant complies with any terms and conditions the Director deems necessary to protect Sanctuary resources and qualities. Amendments, renewals and extensions of authorizations in existence on the effective date of designation constitute authorizations issued after the effective date.

(h) Notwithstanding paragraphs (e) and (g) of this section, in no event may the Director issue a National Marine Sanctuary permit under §§922.48 and 922.153 or a Special Use permit under section 310 of the Act authorizing, or otherwise approve: The exploration for, development or production of oil, gas or minerals within the Sanctuary; the

15 CFR Ch. IX (1-1-03 Edition)

discharge of primary-treated sewage within the Sanctuary (except by certification, pursuant to §922.47, of valid authorizations in existence on July 22, 1994 and issued by other authorities of competent jurisdiction); the disposal of dredged material within the Sanctuary other than in connection with beach nourishment projects related to harbor maintenance activities; or bombing activities within the Sanctuary. Any purported authorizations issued by other authorities after July 22, 1994 for any of these activities within the Sanctuary shall be invalid.

§922.153 Permit procedures and criteria.

(a) A person may conduct an activity prohibited by paragraphs (a) (2) through (7) of §922.152 if conducted in accordance with the scope, purpose, terms and conditions of a permit issued under this section and §922.48.

(b) Applications for such permits should be addressed to the Director, Office of Ocean and Coastal Resource Management; ATTN: Manager, Olympic Coast National Marine Sanctuary, 138 West First Street, Port Angeles, WA 98362.

(c) The Director, at his or her discretion, may issue a permit, subject to such terms and conditions as he or she deems appropriate, to conduct an activity prohibited by paragraphs (a) (2) through (7) of §922.152, if the Director finds that the activity will not substantially injure Sanctuary resources and qualities and will: further research related to Sanctuary resources and qualities; further the educational, natural or historical resource value of the Sanctuary; further salvage or recovery operations in or near the Sanctuary in connection with a recent air or marine casualty; assist in managing the Sanctuary; further salvage or recovery operations in connection with an abandoned shipwreck in the Sanctuary title to which is held by the State of Washington; or promote the welfare of any Indian tribe adjacent to the Sanctuary. In deciding whether to issue a permit, the Director may consider such factors as: the professional qualifications and financial ability of the applicant as related to the proposed activity; the duration of the activity and the duration

of its effects; the appropriateness of the methods and procedures proposed by the applicant for the conduct of the activity; the extent to which the conduct of the activity may diminish or enhance Sanctuary resources and qualities; the cumulative effects of the activity; the end value of the activity; and the impacts of the activity on adjacent Indian tribes. Where the issuance or denial of a permit is requested by the governing body of an Indian tribe, the Director shall consider and protect the interests of the tribe to the fullest extent practicable in keeping with the purposes of the Sanctuary and his or her fiduciary duties to the tribe. The Director may also deny a permit application pursuant to this section, in whole or in part, if it is determined that the permittee or applicant has acted in violation of the terms or conditions of a permit or of the regulations in this subpart. In addition, the Director may consider such other factors as he or she deems appropriate.

(d) It shall be a condition of any permit issued that the permit or a copy thereof be displayed on board all vessels or aircraft used in the conduct of the activity.

(e) The Director may, *inter alia*, make it a condition of any permit issued that any data or information obtained under the permit be made available to the public.

(f) The Director may, *inter alia*, make it a condition of any permit issued that a NOAA official be allowed to observe any activity conducted under the permit and/or that the permit holder submit one or more reports on the status, progress or results of any activity authorized by the permit.

(g) The Director shall obtain the express written consent of the governing body of an Indian tribe prior to issuing a permit, if the proposed activity involves or affects resources of cultural or historical significance to the tribe.

(h) Removal, or attempted removal of any Indian cultural resource or artifact may only occur with the express written consent of the governing body of the tribe or tribes to which such resource or artifact pertains, and certification by the Director that such activities occur in a manner that minimizes damage to the biological and archeo-

logical resources. Prior to permitting entry onto a significant cultural site designated by a tribal governing body, the Director shall require the express written consent of the governing body of the tribe or tribes to which such cultural site pertains.

§922.154 Consultation with the State of Washington, affected Indian tribes, and adjacent county governments.

(a) The Director shall regularly consult with the State of Washington, the governing bodies of tribes with reservations adjacent to the Sanctuary, and adjacent county governments regarding areas of mutual concern, including Sanctuary programs, permitting, activities, development, and threats to Sanctuary resources.

(b) The Director shall, when requested by such governments, enter into a memorandum of understanding regarding such consultations.
