§ 1655.10

when added to any outstanding loan principal, may not exceed any of the following:

(1) The portion of the participant's individual account balance that is attributable to employee contributions and earnings (including any outstanding loan principal).

(2) \$50,000 minus the excess of the highest outstanding loan principal of the participant during the preceding year over the current outstanding loan principal.

(3) The greater of $\frac{1}{2}$ of the participant's vested account balance (including any outstanding loan principal), or \$10,000.

(c) Subject to the requirement of paragraph (a), a participant may request a loan for the maximum allowable amount as calculated in paragraph (b).

§ 1655.7 Interest rate.

(a) Except as provided in paragraph (b) of this section, loans will bear interest at the G Fund rate in effect on the date the application is received by the recordkeeper (date of application). The interest rate per payment is calculated by dividing this G Fund rate by the number of loan payments/pay periods scheduled in a period of 12 consecutive months.

(b) If the date of application occurs before the G Fund rate has been determined for that month, the loan will bear interest at the G Fund rate in effect during the month preceding the date of application.

(c) The interest rate calculated under this section remains fixed until the loan is repaid, unless the participant informs the TSP record keeper that he or she entered into active duty military service and requests that the interest rate on a loan issued before entry into active duty military service be reduced to an annual rate of 6 percent for the period of such service. The participant must provide the record keeper with the beginning and ending dates of active duty military service.

Each participant with an outstanding loan or loans will receive quarterly

loan statements that will describe the activity relating to each of his or her outstanding loans during the period covered.

§ 1655.9 Effect of loans on individual account.

(a) For purposes of earnings allocation, the amount borrowed will be removed from the participant's account as of the last valuation date prior to the loan issue date. As provided in part 1645, the account will receive no earnings on the amount borrowed for the month in which the loan issue date occurs.

(b) The removal of the principal for earnings allocation purposes described in paragraph (a) of this section will be prorated according to the investment of the portion of the account represented by employee contributions and attributable earnings in the G Fund, the C Fund, and in the F Fund as of the most recent valuation date.

(c) Loan payments, including both principal and interest, will be credited to the individual account of the participant repaying the loan for the month in which the loan payment is processed by the recordkeeper. The loan payments (principal and interest) will be credited *pro rata* to the G Fund, the C Fund, and the F Fund based upon the proportions of the interim account balances of the G Fund, the C Fund, and the F Fund balances in the borrower's account on the last day of the month prior to the month in which the loan payment is processed. Earnings on loan payments will be credited as described in 5 CFR part 1645.
