

**§ 634.27**

**7 CFR Ch. VI (1-1-03 Edition)**

(1) Forfeits all right to any future cost-share payments on the transferred land unit, and

(2) Must refund with interest all cost-share payments that have been made on the transferred land unit unless the new land owner or operator becomes a party to the contract, except that where it is determined by the administering agency, with the approval of the State conservationist, NRCS, that the established BMPs will provide water quality benefits for the design life of the BMP, the payment may be retained.

(f) If the new land owner or operator becomes a party to the contract:

(1) Payment which has been earned, but not made to the participant who applied the BMPs and had control prior to the transfer, can be made,

(2) Such land owner or operator is to assume all obligations of the previous participant on the transferred land unit,

(3) The contract with the new participant is to remain in effect with the original terms and conditions, and

(4) The contract is to be modified in writing to show the changes caused by the transfer. If the modification is not acceptable to the administering agency, the provisions of paragraphs (e) (1) and (2) of this section apply.

(g) The transfer of all or part of a land unit by a participant does not affect the rights and obligations of other participants who have signed the contract.

**§ 634.27 Cost-share payment.**

(a) *General.* Participants are to obtain or contract for materials or services as needed to install BMPs. Federal Cost-share payments are to be made by the administering agency upon certification by the District Conservationist, NRCS, or its designee, that the BMPs, or an identifiable unit thereof, have been properly carried out and meet the appropriate standards and specifications.

(b) *Payment maximum.* The maximum total Federal cost-share payment to a participant shall be limited to \$50,000. Exceptions to this limit may be made by the administering agency with concurrence of the Administrator, NRCS, upon recommendation of the NRCWCC,

where it determines that the main benefits to be derived are essential for meeting the water quality objectives in the project area.

(c) *Basis for cost-share payment.* (1) Cost-share payments are to be made by the administering agency at the cost-share percentage and by one of the following methods designated by the administering agency and set out in the contract:

(i) Average cost, or

(ii) Actual cost not to exceed average cost.

(2) If the average cost at the time of starting the installation of a BMP or identifiable unit is less than the costs specified in the contract, payment is to be at the lower rate. If the costs at the start of installation are higher, payment may be made at the higher rate. A modification will be necessary if the higher cost results in a significant increase in the total cost-share obligation. Cost-share payment is not to be made until the modification reflecting the increase is approved.

(d) *Average cost development.* Average costs are to be developed by the administering agency for each project using cost data from the local area. These costs should be reviewed by the SRCWCC for consistency with average costs in other USDA programs. The average cost list is to be updated annually by the administering agency.

(e) *Application for payment.* Cost-share payments can be made by the administering agency after a participant has carried out a BMP or an identifiable unit of a BMP. Application for payment must be submitted to the administering agency, be certified by the NRCS or its designee, and be supported by such cost receipts as are required by the administering agency. It is the participant's responsibility to apply for payments.

(f) *Authorizations for payments to suppliers.* (1) The contract may authorize that part or all of the Federal cost share for a BMP or an identifiable unit be made directly to suppliers of materials or services. The materials or services must be delivered or performed before payment is made.

(2) Federal cost shares will not be in excess of the cost share attributable to the material or service used or not in

excess of the cost share for all identifiable units as may be requested by the participant.

(g) *Material inspection and analysis.* When authorizations for payments to suppliers are specified, the administering agency, its representatives, or the Government reserve the right to inspect, sample, and analyze materials or services prior to their use.

(h) *Assignments, set-offs, and claims.* (1) A State or local administering agency may allow the assignment of payments to the extent provided by State law. When ASCS is designated as the administering agency, assignments by any participant who may be entitled to cost-share payment under the program are prohibited unless they are made in accordance with the provisions of section 203, Title 31, U.S.C., as amended, and section 15, Title 41, U.S.C., as amended.

(2) If any participant to whom compensation is payable under RCWP is indebted to the United States and such indebtedness is listed on the county register of indebtedness maintained by the County ASC committee, the compensation due the participant must be used (set-off) to reduce that indebtedness. Indebtedness to USDA is to be given first consideration. Deductions for setoffs involving a non-resident alien shall be made as provided by 26 U.S.C. 871. Setoffs made pursuant to this section are not to deprive the participant of any right to contest the justness of the indebtedness involved, either by administrative appeal or by legal action.

(3) Any cost-share payment due any participant shall be allowed without deduction of claims for advances except as provided for above and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the participant or any other creditor.

(i) *Access to land unit and records.* Any authorized administering agency, or NRCS employees or agents, shall have the right of access at reasonable times to land under application or contract, and the right to examine any program records to ascertain the accuracy of any representations made in the application or contract. This is limited to the right to furnish technical assist-

ance and to inspect work performed under the contract.

(j) *Suspension of payments.* No cost-share payments will be made pending a decision on whether or not a contract violation has occurred.

(k) *Ineligible payments.* The filing of requests for payment for BMP's not carried out, or for BMP's carried out in such a manner that they do not meet contract specifications, constitutes a violation of the contract.

**§ 634.28 Appeals not related to contract violations.**

(a) The participant may, prior to execution of the contract, request that the administering agency review or reconsider criteria being used in developing his or her contract. Such review or reconsideration may include the eligibility of BMP's which had not been approved for application in the project area, cost-sharing levels for BMP's, priorities for developing water quality plans, and standards and specifications.

(1) If verbal agreement is not reached, the participant may make a written request within 30 days after receiving notice of the decision of his or her verbal request.

(2) The administering agency shall have 30 days in which to make a decision and notify the participant in writing.

(3) The decision of the administering agency shall be final.

(b) If, after the contract has been executed, the participant and the administering agency are unable to reach written agreement relative on matters which are not related to contract violations, the participant may request and receive a review by the appeals board. The administering agency will:

(1) Notify the participant, in writing, of the date the appeals board will consider the appeal.

(2) Within 30 days after receiving the administering agency's notice, the participant may file a request to appear and present oral and other evidence. If the participant does not request an appearance, the administering agency appeals board will decide the dispute on
