§ 1735.10 General.

(a) The Rural Utilities Service (RUS) makes loans to furnish and improve telephone service in rural areas. Loans made or guaranteed by the Administrator of RUS will be made in conformance with the Rural Electrification Act of 1936 (RE Act), as amended (7 U.S.C. 901 *et seq.*), and 7 CFR chapter XVII. RUS provides borrowers specialized and technical accounting, engineering, and other managerial assistance in the construction and operation of their facilities when necessary to aid the development of rural telephone service and to protect loan security.

(b) RUS will not make hardship loans, RUS cost-of-money loans, or RTB loans for any wireline local exchange service or similar fixed-station voice service that, in RUS’ opinion, is inconsistent with the borrower achieving the requirements stated in the State’s telecommunication moderniza-

tion plan within the time frame stated in the plan (see 7 CFR part 1751, subpart B), unless RUS has determined that achieving the requirements as stated in such plan is not technically or economically feasible.

(c) A borrower receiving a loan to provide mobile telecommunications services or special telecommunications services shall be considered to be participating in the state telecommunications plan (TMP) with respect to the particular loan so long as the loan funds are not used in a manner that, in RUS’ opinion, is inconsistent with the borrower achieving the goals set forth in the plan, except that a borrower must comply with any portion of a TMP made applicable to the borrower by a state commission with jurisdiction.

(d) RUS will not deny or reduce a loan or an advance of loan funds based on a borrower’s level of general funds.

(e) No fees or charges are assessed for any type of loan or guarantee provided by RUS or the Rural Telephone Bank (RTB).

(f) The Administrator may use consultants funded by the borrower for financial, legal, engineering, and other technical advice in connection with the review of a borrower’s loan application.

§ 1735.11 Area coverage.

Borrowers must make adequate telephone service available to the widest practical number of rural subscribers during the life of the loan. Both the nature of the service area and the cost per subscriber must be fully considered. The borrower must seek to provide service to all interested potential subscribers in the service area. Borrowers are not required to extend service in situations where the costs would be exorbitant. The loan contract shall contain appropriate provisions to effect this requirement. See 7 CFR 1737.11(a), Preapplication Determinations: Area to be Served.

§ 1735.12 Nonduplication.
