

Rural Utilities Service, USDA

§ 1778.7

the State regardless of whether State development strategies include Indian reservations within the State's boundaries. Indians residing on such reservations must have an equal opportunity along with other rural residents to participate in the benefits of this program. This includes equal application of outreach activities of Field Offices.

(e) Federal statutes provide for extending the Agency financial programs without regard to race, color, religion, sex, national origin, marital status, age, or physical/mental handicap (provided the participant possesses the capacity to enter into legal contracts).

§ 1778.2 [Reserved]

§ 1778.3 Objective.

The objective of the Emergency Community Water Assistance Grant Program is to assist the residents of rural areas that have experienced a significant decline in quantity or quality of water to obtain adequate quantities of water that meet the standards set by the Safe Drinking Water Act (42 U.S.C. 300f et seq.) (SDWA).

§ 1778.4 Definitions.

Emergency. Occurrence of an incident such as, but not limited to, a drought, earthquake, flood, hurricane, disease outbreak, or chemical spill.

Rural areas. Includes any area in any city or town with a population not in excess of 10,000 inhabitants according to the most recent decennial census of the United States, located in any of the fifty States, the Commonwealth of Puerto Rico, the Western Pacific Territories, Marshall Islands, Federated States of Micronesia, Republic of Palau, and the U.S. Virgin Islands.

Significant decline in quality. A significant decline in quality of potable water is where the present community source or delivery system does not meet, as a result of an emergency, the current SDWA requirements. For a private source or delivery system a significant decline in quality is where the water is no longer potable as a result of an emergency.

Significant decline in quantity. A significant decline in the quantity is caused by a disruption of the potable water supply by an emergency. The dis-

ruption in quantity of water prevents the present source or delivery system from supplying potable water needs to rural residents. This would not include a decline in excess water capacity.

§ 1778.5 [Reserved]

§ 1778.6 Eligibility.

(a) Grants may be made to public bodies and private nonprofit corporations serving rural areas. Public bodies include counties, cities, townships, incorporated towns and villages, boroughs, authorities, districts, and other political subdivisions of a State. Public bodies also includes Indian tribes on Federal and State reservations and other Federally recognized Indian Tribal groups in rural areas.

(b) In the case of grants made to alleviate a significant decline in quantity or quality of water available from the water supplies of rural residents, the applicant must demonstrate that the decline occurred within two years of the date the application was filed with the Agency. This would not apply to grants made for repairs, partial replacement, or significant maintenance on an established water system.

§ 1778.7 Project priority.

Paragraphs (a) through (d) of this section indicate items and conditions which must be considered in selecting applications for further development. When ranking eligible applications for consideration for limited funds, Agency officials must consider the priority items met by each application and the degree to which those priorities are met.

(a) *Applications.* The application and supporting information submitted with it will be used to determine the proposed project's priority for available funds.

(b) *State Office review.* All applications will be reviewed and scored for funding priority using RUS Bulletin 1778-1. The State Program Official will request funds from the National Office, Attention: Assistant Administrator, Water and Waste, using RUS Bulletins 1778-1 and 1778-2. If an application cannot be funded, the State Program Official will be notified. Eligible applicants that
