§318.58-4 Issuance of certificates or limited permits.

Under the following conditions, an inspector may issue a certificate or limited permit for the movement of regulated articles to be moved in accordance with this subpart:

(a) *Certification on basis of inspection or nature of lot involved.* An inspector may issue a certificate for fruits and vegetables designated in §318.58-2(b)(1) after he has inspected them and found that they appear free from infestation and infection, or has determined without an inspection that the lot for shipment is of such a nature that there appears to be no danger of infestation or infection.

(b) *Certification on basis of treatment.* Fruits and vegetables designated in §318.58-2(b) may be certified after undergoing an approved treatment contained in the Plant Protection and Quarantine Treatment Manual under the supervision of an inspector and if the articles are handled after treatment in accordance with all conditions that the inspector requires. The Plant Protection and Quarantine Treatment Manual is incorporated by reference at §300.1 of this chapter. Treatments shall be applied at the expense of the ship-

per, owner, or person in charge of the articles. The Department of Agriculture or its inspector will not be responsible for loss or damage resulting from any treatment prescribed or supervised under this subpart.

§318.58-4a Administrative instructions authorizing the movement from Puerto Rico of frozen fruits and vegetables.

(a) The type of treatment designated in this subpart as freezing shall be one of the commercially-acceptable methods that involves initial freezing at subzero temperatures and subsequent storage at not higher than 0 °F., with a storage tolerance of plus 20 °F. Such treatments are commonly known as quick freezing, sharp freezing, frozen-pack, or cold-pack. Any equivalent freezing method is also included in this designation.

(b) The Deputy Administrator of the Plant Protection and Quarantine Programs is satisfied that the movement of all fruits and vegetables specified in §318.58-2, when frozen, will not result in the dissemination of injurious insects. Accordingly, pursuant to the authority contained in the proviso of §318.58-2, all fruits and vegetables specified therein, when frozen, are hereby removed from a prohibited status and are included in the list for which movement from Puerto Rico into or through any other State, Territory, or District is authorized in §318.58-3. Freezing is hereby prescribed as an approved treatment meeting the treatment requirements for the movement of fruits and vegetables specified in §318.58-3.¹

¹Further information concerning the movement of frozen fruits and vegetables from Puerto Rico may be obtained from the Plant Protection and Quarantine Programs, Room 4, Post Office Bldg., P.O. Box 3386, San Juan, PR 00901.

(c) The inspector in Puerto Rico shall determine that such fruits and vegetables are in a satisfactory frozen state before issuing a certificate. The inspector on the mainland will release the shipment on the basis of the certificate issued in Puerto Rico.

(d) The movement from Puerto Rico of frozen fruits and vegetables is not authorized when such fruits and vegetables are subject to attack, in the area of origin, by plant pests that may not, in the judgment of the Deputy Administrator of the Plant Protection and Quarantine Programs, be destroyed by freezing.

(e) Freezing of fruits and vegetables as authorized in these instructions is considered necessary for the elimination of pest risk, and no liability shall attach to the United States Department of Agriculture or to any officer or representative of that Department in the event of injury resulting to fruits or vegetables offered for movement in accordance with these instructions.
