

§ 530.151 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the Board shall be designed, constructed, or altered so as to be readily accessible to and usable by handicapped persons. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151-4157), as established in 41 CFR 101-19.600 to 101-19.607, apply to buildings covered by this section.

§§ 530.152-530.159 [Reserved]**§ 530.160 Communications.**

(a) The Board shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The Board shall furnish appropriate auxiliary aids where necessary to afford a handicapped person an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the Board.

(i) In determining what type of auxiliary aid is necessary, the Board shall give primary consideration to the requests of the handicapped person.

(ii) The Board need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature.

(c) The Board shall provide signage at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the Board to take any action that it can demonstrate would result in a funda-

mental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where Board personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the Board has the burden of proving that compliance with § 530.160 would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the Board head or his or her designee after considering all Board resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the Board shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons receive the benefits and services of the program or activity.
