

Subpart A—Planning Definitions

§ 450.100 Purpose.

The purpose of this subpart is to provide definitions for terms used in this part which go beyond those terms defined in 23 U.S.C. 101(a).

§ 450.102 Applicability.

The definitions in this subpart are applicable to this part, except as otherwise provided.

§ 450.104 Definitions.

Except as defined in this subpart, terms defined in 23 U.S.C. 101(a) are used in this part as so defined.

Consultation means that one party confers with another identified party in accordance with an established process and, prior to taking action(s), considers that party's views and periodically informs that party about action(s) taken.

Cooperation means that the parties involved in carrying out the planning, programming and management systems processes work together to achieve a common goal or objective.

Coordination means the comparison of the transportation plans, programs, and schedules of one agency with related plans, programs and schedules of other agencies or entities with legal standing, and adjustment of plans, programs and schedules to achieve general consistency.

Governor means the Governor of any one of the fifty States, or Puerto Rico, and includes the Mayor of the District of Columbia.

Maintenance area means any geographic region of the United States designated nonattainment pursuant to the CAA Amendments of 1990 (Section 102(e)), 42 U.S.C. 7410 *et seq.*, and subsequently redesignated to attainment subject to the requirement to develop a maintenance plan under section 175A of the Clean Air Act as amended (CAA), 42 U.S.C. 7410 *et seq.*

Major metropolitan transportation investment means a high-type highway or transit improvement of substantial cost that is expected to have a significant effect on capacity, traffic flow, level of service, or mode share at the transportation corridor or subarea scale. Consultation among the MPO,

State department of transportation, transit operator, the FHWA and the FTA may lead to the designation of other proposed improvements as major investments beyond the examples listed below. Examples of such investments could generally include but are not limited to: Construction of a new partially controlled access (access allowed only for public roads) principal arterial, extension of an existing partially controlled access (access allowed only for public roads) principal arterial by one or more miles, capacity expansion of a partially controlled access (access provided only for public roads) principal arterial by at least one lane through widening or an equivalent increase in capacity produced by access control or technological improvement, construction or extension of a high-occupancy vehicle (HOV) facility or a fixed guideway transit facility by one or more miles, the addition of lanes or tracks to an existing fixed guideway transit facility for a distance of one or more miles, or a substantial increase in transit service on a fixed guideway facility. For this purpose, a fixed guideway refers to any public transportation facility which utilizes and occupies a designated right-of-way or rails including (but not limited to) rapid rail, light rail, commuter rail, busways, automated guideway transit, and people movers. Projects that generally are not considered to be major transportation investments include but are not limited to: Highway projects on principal arterials where access is not limited to public roads only, small scale improvements or extensions (normally less than one mile) on principal arterials with the primary goal of relieving localized safety or operational difficulties, resurfacing, replacement, or rehabilitation of existing principal arterials and equipment, highway projects not located on a principal arterial, and changes in transit routing and scheduling.

Management system means a systematic process, designed to assist decisionmakers in selecting cost effective strategies/actions to improve the efficiency and safety of, and protect the investment in the nation's infrastructure. A management system includes:

identification of performance measures; data collection and analysis; determination of needs; evaluation, and selection of appropriate strategies/actions to address the needs; and evaluation of the effectiveness of the implemented strategies/actions.

Metropolitan planning area means the geographic area in which the metropolitan transportation planning process required by 23 U.S.C. 134 and section 8 of the Federal Transit Act must be carried out.

Metropolitan planning organization (MPO) means the forum for cooperative transportation decisionmaking for the metropolitan planning area. MPOs designated prior to the promulgation of this regulation remain in effect until redesignated in accordance with § 450.106 and nothing in this part is intended to require or encourage such redesignation.

Metropolitan transportation plan means the official intermodal transportation plan that is developed and adopted through the metropolitan transportation planning process for the metropolitan planning area.

Nonattainment area means any geographic region of the United States that the Environmental Protection Agency (EPA) has designated as a nonattainment area for a transportation related pollutant(s) for which a National Ambient Air Quality Standard (NAAQS) exists.

Non-metropolitan area means the geographic area outside designated metropolitan planning areas, as designated under 23 U.S.C. 134 and 49 U.S.C. 5303.

Non-metropolitan local official means elected and appointed officials of general purpose local government, in non-metropolitan areas, with jurisdiction/responsibility for transportation.

Regionally significant project means a project (other than projects that may be grouped in the STIP/TIP pursuant to § 450.216 and § 450.324) that is on a facility which serves regional transportation needs (such as access to and from the area outside of the region, major activity centers in the region, major planned developments such as new retail malls, sports complexes, etc., or transportation terminals as well as most terminals themselves) and would normally be included in the

modeling of a metropolitan area's transportation network, including, as a minimum, all principal arterial highways and all fixed guideway transit facilities that offer a significant alternative to regional highway travel.

State means any one of the fifty States, the District of Columbia, or Puerto Rico.

State Implementation Plan (SIP) means the portion (or portions) of an applicable implementation plan approved or promulgated, or the most recent revision thereof, under sections 110, 301(d) and 175A of the Clean Air Act (42 U.S.C. 7409, 7601, and 7505a).

Statewide transportation improvement program (STIP) means a staged, multiyear, statewide, intermodal program of transportation projects which is consistent with the Statewide transportation plan and planning processes and metropolitan plans, TIPs and processes.

Statewide transportation plan means the official statewide, intermodal transportation plan that is developed through the statewide transportation planning process.

Transportation improvement program (TIP) means a staged, multiyear, intermodal program of transportation projects which is consistent with the metropolitan transportation plan.

Transportation Management Area (TMA) means an urbanized area with a population over 200,000 (as determined by the latest decennial census) or other area when TMA designation is requested by the Governor and the MPO (or affected local officials), and officially designated by the Administrators of the FHWA and the FTA. The TMA designation applies to the entire metropolitan planning area(s).

[58 FR 58064, Oct. 28, 1993, as amended at 68 FR 3181, Jan. 23, 2003; 68 FR 7419, Feb. 14, 2003]

Subpart B—Statewide Transportation Planning

§ 450.200 Purpose.

The purpose of this subpart is to implement 23 U.S.C. 135, which requires each State to carry out a continuing, comprehensive, and intermodal statewide transportation planning process,
