§ 585.307 Environmental procedures and standards.

(a) *Environmental procedures.* Applicants are encouraged to select hazard-free and problem-free properties for their Youthbuild projects. Environmental procedures apply to HUD approval of implementation grants when the applicant proposes to use Youthbuild funds to cover any costs for the lease, acquisition, rehabilitation, or new construction of real property that is proposed for housing project development. Environmental procedures do not apply to HUD approval of implementation grants when applicants propose to use their Youthbuild funds solely to cover any costs for classroom and/or on-the-job construction training and supportive services. For those applicants that propose to use their Youthbuild funds to cover any costs of the lease, acquisition, rehabilitation, or new construction of real property, the applicant shall submit all relevant

environmental information in its application to support HUD decision-making in accordance with the following environmental procedures and standards.

(1) Before any Youthbuild implementation application that requests funds for acquisition, rehabilitation, or construction can be selected for funding, HUD shall determine whether any environmental thresholds are exceeded in accordance with 24 CFR part 50, which implements the National Environmental Policy Act (NEPA) and the related Federal environmental laws and authorities listed under 24 CFR 50.4.

(i) If HUD determines that one or more of the thresholds are exceeded, HUD shall conduct a compliance review of the issue and, if appropriate, establish mitigating measures that the applicant shall carry out for the property;

(ii) In performing its review, HUD may use previously issued environmental reviews prepared by local, State, or other Federal agencies for the proposed property;

(iii)(A) The application for the Youthbuild implementation grant shall provide HUD with:

(1) Applicant documentation for environmental threshold review; and

(2) Any previously issued environmental reviews prepared by local, State, or other Federal agencies for the proposed property.

(B) The applicant is encouraged to contact the local community development agency to obtain any previously issued environmental reviews for the proposed property as well as for other relevant information that can be used in the applicant documentation for the environmental threshold review. In using previous reviews by other sources, HUD must, however, conduct the environmental analysis and prepare the environmental review and be responsible for any required environmental findings.

(2) HUD reserves the right to disqualify any application where one or more environmental thresholds are exceeded if HUD determines that the compliance review cannot be conducted and satisfactorily completed within the HUD review period for applications.
