§ 29.51 Failure to give notice; penalty.

Failure to give notice of manufacture of still or notice of setup of still when required to do so is punishable by a fine of not more than \$1,000 or imprisonment for not more than one year, or both, and any still, boiler (double or

pot still), condenser, or other distilling apparatus to be used for the purpose of distilling which is removed or set up without the required notice having been given is forfeitable to the Government.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1405, as amended, 1412, as amended (26 U.S.C. 5615, 5687))

§ 29.53 Identification of distilling apparatus.

(a) *General.* Each still or condenser manufactured will be identified by the manufacturer as follows:

(1) Name of manufacturer.

(2) Address of manufacturer.

(3) Manufacturer's serial number for the apparatus.

(b) *Marking requirements.* The apparatus will be identified in a legible and durable manner. The required identification marks will be placed on the apparatus in a location where they will not be obscured or concealed.

§ 29.55 Registry of stills and distilling apparatus.

(a) *General.* Every person having possession, custody, or control of any still or distilling apparatus set up shall, immediately on its being set up, register the still or distilling apparatus, except that a still or distilling apparatus not used or intended for use in the distillation, redistillation, or recovery of distilled spirits is not required to be registered. Registration may be accomplished by describing the still or distilling apparatus on the registration or permit application prescribed in this chapter for qualification under 26 U.S.C. chapter 51 or, if qualification is not required under 26 U.S.C. chapter 51, on a letter application, and filing the application with the appropriate ATF officer. Approval of the application by the appropriate ATF officer will constitute registration of the still or distilling apparatus.

(b) *When still is set up.* A still will be regarded as set up and subject to registry when it is in position over a furnace, or connected with a boiler so that heat may be applied, irrespective of whether a condenser is in position. This rule is intended merely as an illustration and should not be construed

§ 29.57

as covering all types of stills or condensers requiring registration.

(c) *Change in location or ownership.* Where any distilling apparatus registered under this section is to be removed to another location, sold or otherwise disposed of, the registrant shall, prior to the removal or disposition, file a letter notice with the appropriate ATF officer. The letter notice will show the intended method of disposition (sale, destruction, or otherwise), the name and complete address of the person to whom disposition will be made, and the purpose for which the apparatus will be used. After removal, sale, or other disposal, the person having possession, custody, or control of any distilling apparatus intended for use in distilling shall immediately register the still or distilling apparatus on its being set up or, if already set up, immediately on obtaining possession, custody, or control. The registrant shall also comply with the procedures prescribed in this chapter for amendment of the registration or permit application.
