

§ 2301.19

15 CFR Ch. XXIII (1-1-04 Edition)

(4) Return of applications that were deferred by the Agency after consideration during three grant cycles.

(f) The Agency will notify the following organizations of those applications selected for funding:

(1) The state educational telecommunications agency(ies), if any, in any state any part of which lies within the service area of the applicant's facility;

(2) The FCC; and

(3) The Corporation for Public Broadcasting and, as appropriate, other public telecommunications entities.

Subpart D—Post-Award Requirements

§ 2301.19 General conditions attached to the Federal award.

(a) During the project award period and the remainder of the Federal interest period, the grantee must:

(1) Continue to be an eligible organization as described in § 2301.3;

(2) Obtain and continue to hold any necessary FCC authorization(s);

(3) Use the Federal funds for which the grant was made for the equipment and other expenditure items specified in the application for inclusion in the project, except that the grantee may substitute other items where necessary or desirable to carry out the purpose of the project *if approved in advance by the Department in writing*. These changes include but are not limited to the following:

(i) Costs (including planning costs);

(ii) Essential specifications of the equipment;

(iii) The engineering configuration of the project;

(iv) Extensions of the approved grant award period; and

(v) Transfers of a grant award to a successor in interest, pursuant to § 2301.19(c);

(4) Use the facilities and any monies generated through the use of the facilities primarily for the provision of public telecommunications services and ensure that the use of the facilities for other than public telecommunications purposes does not interfere with the provision of the public telecommunications services for which the grant was made;

(5) Not make its facilities available to any person for the broadcast or other transmission intended to be received directly by the public, of any advertisement, unless such broadcast or transmission is expressly and specifically permitted by law or authorized by the FCC; and

(6) State when advertising for bids for the purchase of equipment that the Federal government has an interest in facilities purchased with Federal funds under this program that begins with the purchase of the facilities and continues for ten (10) years after the completion of the project.

(b) During the period in which the grantee possesses or uses the Federally funded facilities, the grantee may not use or allow the use of the Federally funded equipment for purposes the essential thrust of which are sectarian for the useful life of the equipment even when this extends beyond the ten-year Federal interest period. (See NTIA's policy on sectarian activities at 60 FR 66491, Dec. 22, 1995.)

(c) If necessary to further the purpose of the Act, the Agency may reassign a grant to a successor in interest or subsidiary corporation of a grantee in cases where a similar operational entity remains in control of the grant and the original objectives of the grant remain in effect. Each party must provide, in writing, its assent to the substitution. Any substituted party must meet the eligibility requirements.

§ 2301.20 Schedules and reports.

(a) Within thirty (30) calendar days of the award date the grantee shall submit to the Agency, in duplicate, a construction schedule or a revised planning timetable that will include the information requested in the grant terms and conditions in the award package.

(b) During the project period of this grant, the grantee shall submit performance reports, in duplicate, on a calendar year quarterly basis for the period ending March 31, June 30, September 30, and December 31, or any portions thereof. The Quarterly Performance Reports should contain the following information:

(1) A comparison of actual accomplishments during the reporting period with the goals and dates established in

the Construction or Planning Schedule for that reporting period;

(2) A description of any problems that have arisen or reasons why established goals have not been met;

(3) Actions taken to remedy any failures to meet goals; and

(4) Construction projects must also include a list of equipment purchased during the reporting period compared with the equipment authorized. This information must include manufacturer, make and model number, brief description, number and date of the items purchased, and cost.

§ 2301.21 Payment of Federal funds.

(a) The Department will not make any payment under an award, unless and until the recipient complies with all relevant requirements imposed by this Part. Additionally:

(1) The Department will not make any payment until it receives confirmation that the FCC has granted any necessary authorization;

(2) The Department may not make any payment under an award unless and until all special award conditions stated in the award documents that condition the release of Federal funds are met; and

(3) An agreement to share ownership of the grant equipment (*e.g.*, a joint venture for a tower) must be approved by the Agency before any funds for the project will be released.

(b) As a general matter, the Agency expects grantees to expend local matching funds at a rate at least equal to the ratio of the local match to the Federal grant as stipulated in the grant award.

§ 2301.22 Protection, acquisition, and substitution of equipment.

(a) To assure that the Federal investment in public telecommunications facilities funded under the Act will continue to be used to provide public telecommunications services to the public during the Federal interest period, the Agency may require a grantee to:

(1) Execute and record a document establishing that the Federal government has a priority lien on any facilities purchased with funds under the Act during the period of continuing Federal interest. The document shall

be recorded where liens are normally recorded in the community where the facility is located and in the community where the grantee's headquarters are located; and

(2) File a certified copy of the recorded lien with the Administrator ninety (90) days after the grant award is received.

(b) The grantee shall maintain protection against common hazards through adequate insurance coverage or other equivalent undertakings, except that, to the extent the applicant follows a different policy of protection with respect to its other property, the applicant may extend such policy to apparatus acquired and installed under the project. The grantee shall purchase flood insurance (in communities where such insurance is available) if the facilities will be constructed in any area that has been identified by the Federal Emergency Management Agency as having special flood hazards.

(c) The grantee shall not dispose of or encumber its title or other interests in the equipment acquired under this grant during the Federal interest period.

(d) The grantee shall demonstrate that the grantee has obtained appropriate title or lease satisfactory to protect the Federal interest to the site or sites on which apparatus proposed in the project will be operated. The grantee must have the right to occupy, construct, maintain, operate, inspect, and remove the project equipment without impediment to assure the sufficient continuity of operation of the facility; and nothing must prevent the Federal government from entering the property and reclaiming or securing PTFP-funded property.

(e) The Agency will allow the acquisition of facilities by lease; however, the following requirements apply:

(1) The lease must be of benefit to the Federal government;

(2) The actual amount of the lease must not be more than the outright purchase price would be; and

(3) The lease agreement must state that in the event of anticipated or actual termination of the lease, the Federal government has the right to transfer and assign the leasehold to a new
