

(d) No funds from the Federal share of the total project cost may be obligated until the award period start date. If an applicant or recipient obligates anticipated Federal Award funds before the start date, the Department may refuse to offer the award or, if the award has already been granted, disallow those costs of the grant. After the closing date, the applicant may, at its own risk, obligate non-Federal matching funds for the acquisition of proposed equipment.

§ 2301.7 Eligible and ineligible project costs.

(a) Each year the Agency reviews its list of eligible and ineligible equipment, supplies, and costs. The list is published in the FEDERAL REGISTER as part of the solicitation for applications and a copy is provided with every application package for PTFP grants.

(b) All broadcast equipment that a grantee acquires under this program shall be of professional broadcast quality. An applicant proposing to utilize nonbroadcast technology shall propose and purchase equipment that is compatible with broadcast equipment wherever the two types of apparatus interface.

(c) Total project costs do not include the value of eligible apparatus owned or acquired by the applicant prior to the closing date unless approved by PTFP on a case-by-case basis in writing pursuant to § 2301.6(b)(2).

§ 2301.8 Submission of applications.

(a) Applications can be obtained from the following address: Public Telecommunications Facilities Program, NTIA/DOC, 14th Street and Constitution Avenue, NW., Room H-4625, Washington, DC 20230.

(b) The Administrator shall select and publish in the FEDERAL REGISTER a closing date by which applications for funding in a current fiscal year are to be filed.

(c) All applications, whether mailed or hand delivered, must be received by the Agency at the address listed in the annual FEDERAL REGISTER announcement requesting applications at or before 5:00 P.M. on the closing date. Applications received after the closing date shall be rejected and returned

without further consideration (but see § 2301.26).

(d) A complete application must include all of the information required by the Agency application materials and must be submitted in the number of copies specified by the Agency.

(e) Each copy of the Agency application must contain an original signature of an officer of the applicant who is legally authorized to sign for the applicant.

(f) Applicants must certify whether they are delinquent on any Federal debt.

(g) Applicants may be required to submit Name Check forms (Form CD-346) which may be used to ascertain background information on key individuals associated with potential grantees as part of the application, per Department Pre-Award Administrative Requirements and Policies.

(h) Applicant organizations may also be subject to a responsibility determination by the Department which may include but not be limited to reviews of financial and other business activities. Responsibility determinations are intended to ascertain whether potential grantee organizations or their key personnel have been involved in or are facing any matters that might significantly and negatively impact on their business honesty, financial integrity and/or ability to successfully perform the proposed grant activities.

(i) Unsatisfactory performance by the applicant under prior Federal awards may result in the application not being funded.

§ 2301.9 Deferred applications.

(a) An applicant may reactivate an application deferred by the Agency in a prior year during the two consecutive years following the application's initial filing with the Agency; provided the applicant has not substantially changed the stated purpose of the application.

(b) To reactivate a deferred application, the applicant must file an updated application, whether mailed or hand delivered, at or before 5:00 P.M. on the closing date.

(c) An updated application must include all of the information required by

§ 2301.10

the Agency application materials and must be submitted in the number of copies specified by the Agency.

(d) Deferred applications that are re-submitted under this section and contain substantial changes will be considered as new applications.

(e) All deferred applications may be subject to a determination of eligibility during subsequent grant cycles.

§ 2301.10 Applications resulting from catastrophic damage or emergency situations.

(a) An application may be filed with a request for a waiver of the closing date, as provided in § 2301.26, when an eligible broadcast applicant suffers catastrophic damage to the basic equipment essential to its continued operation as a result of a natural or man-made disaster, or as the result of complete equipment failure, and is in dire need of assistance in funding replacement of the damaged equipment. This section is limited to equipment essential to a station's continued operation such as transmitters, tower, antennas, STL's or similar equipment which, if the equipment failed, would result in a complete loss of service to the community.

(b) The request for a waiver must set forth the circumstances that prompt the request and be accompanied by appropriate supporting documentation.

(c) A waiver will be granted only if it is determined that the applicant either carried adequate insurance or had acceptable self-insurance coverage.

(d) Applicants claiming complete failure of equipment must document the circumstances of the equipment failure and demonstrate that the equipment has been maintained in accordance with standard broadcast engineering practices.

(e) Applications filed and accepted pursuant to this section must contain all of the information required by the Agency application materials and must be submitted in the number of copies specified by the Agency.

(f) The application will be subject to the same evaluation and selection process followed for applications received in the normal application cycle, although the Administrator may establish a special timetable for evaluation

(a) Each applicant whose project requires FCC authorization must file an application for that authorization on or before the closing date. NTIA recommends that its applicants submit PTFP-related FCC applications to the FCC at least 60 days prior to the PTFP closing date. The applicant should clearly identify itself to the FCC as a PTFP applicant.

(b) In the case of FCC authorizations where it is not possible or practical to submit the FCC license application with the PTFP application, such as C-band satellite uplinks, low-power television stations and translators, remote pickups, studio-to-transmitter links, and Very Small Aperture Terminals, a copy of the FCC application as it will be submitted to the FCC, or the equivalent engineering data, must be included in the PTFP application.
