

threshold quantity of a Schedule 2 chemical described in paragraphs (a)(1)(i)(A) through (C) of this section in any of the three previous calendar years. Form B is optional. If you are subject to annual declaration requirements, you must include data for the previous calendar year only.

(3) *Annual declaration on anticipated activities.* You must complete the Certification Form and Forms 2-1, 2-2, 2-3, 2-3A, 2-3C, and Form A if you plan to produce, process, or consume at any plant on your plant site a Schedule 2 chemical above the applicable threshold quantity set forth in paragraphs (a)(1)(i)(A) through (C) of this section during the following calendar year, beginning with activities planned for calendar year 2001. Form B is optional.

(c) *Quantities to be declared.* (1) *Production, processing and consumption of a Schedule 2 chemical above the declaration threshold—(i) Initial declaration.* If you are required to complete forms pursuant to paragraph (a)(1)(i) of this section, you must declare the aggregate quantity resulting from each type of activity (production, processing or consumption) from each plant on your plant site that exceeds the applicable threshold quantity for that Schedule 2 chemical for each of the calendar years 1994, 1995, and 1996. Do not aggregate amounts of production, processing or consumption from plants on the plant site that did not individually produce, process or consume a Schedule 2 chemical in amounts greater than the applicable threshold levels. For those years in which you produced, processed or consumed the declared chemical below the declaration threshold, you declare “0” only for the declared activities.

(ii) *Annual declaration on past activities.* If you are required to complete forms pursuant to paragraph (a)(1)(ii) of this section, you must declare the aggregate quantity resulting from each type of activity (production, processing or consumption) from each plant on your plant site that exceeds the applicable threshold quantity for that Schedule 2 chemical. Do not aggregate amounts of production, processing or consumption from plants on the plant site that did not individually produce, process or consume a Schedule 2 chemical in amounts greater than the appli-

cable threshold levels. If in the previous calendar year you produced, processed or consumed below the declaration threshold, but your declaration requirement is triggered because of activities occurring in an earlier year, you declare “0” only for the declared activities.

(2) *Rounding.* For the chemical BZ, report quantities to the nearest hundredth of a kilogram (10 grams). For PFIB and the Amiton family, report quantities to the nearest 1 kilogram. For all other Schedule 2 chemicals, report quantities to the nearest 10 kilograms.

(d) *“Declared” Schedule 2 plant sites.* A plant site that comprises at least one plant that produced, processed or consumed a Schedule 2 chemical above the applicable threshold quantity set forth in paragraphs (a)(1)(i)(A) through (C) of this section during any of the previous three calendar years or is anticipated to produce, process or consume a Schedule 2 chemical above the applicable threshold quantity in the next calendar year is a “declared” plant site. A plant site that submitted an initial declaration for activities that occurred in 1994, 1995, or 1996 is a “declared” Schedule 2 plant site for those years.

(e) *Declared Schedule 2 plant sites subject to routine inspections.* A “declared” Schedule 2 plant site is subject to initial and routine inspection by the Organization for the Prohibition of Chemical Weapons if it produced, processed or consumed in any of the three previous calendar years, or is anticipated to produce, process or consume in the next calendar year, in excess of ten times the applicable declaration threshold quantity set forth in paragraphs (a)(1)(i)(A) through (C) of this section (see part 716 of this subchapter). A plant site that submitted an initial declaration for calendar years 1994, 1995, and 1996, and exceeded the applicable inspection threshold is also subject to an initial inspection.

§713.4 Initial and annual declaration and reporting requirements for exports and imports of Schedule 2 chemicals.

(a) *Declarations and reports of exports and imports of Schedule 2 chemicals.*

(1) *Declarations.* A Schedule 2 plant site that is declared because it produced, processed or consumed a Schedule 2 chemical above the applicable threshold quantity, and also exported from or imported to the plant site that same Schedule 2 chemical above the applicable threshold quantity, must submit export and import information as part of its declaration.

NOTE TO PARAGRAPH (a)(1): A declared Schedule 2 plant site may need to declare exports or imports of Schedule 2 chemicals that it produced, processed or consumed above the applicable threshold quantity and also report exports or imports of different Schedule 2 chemicals that it did not produce, process or consume above the applicable threshold quantities.

(2) *Reports.* A declared plant site that does not meet the description of paragraph (a)(1) of this section, and an undeclared plant site or a trading company or any other person subject to the CWC must submit a report if it exported or imported a Schedule 2 chemical above the applicable threshold quantity.

NOTE TO PARAGRAPH (a)(2): The U.S. Government will not submit to the OPCW company-specific information relating to the export or import of Schedule 2 chemicals contained in reports. The U.S. Government will add all export and import information contained in reports to export and import information contained in declarations to establish the U.S. national aggregate declaration on exports and imports.

NOTE TO PARAGRAPHS (a)(1) AND (2): Declared and undeclared plant sites must count, for declaration or report purposes, all exports from and imports to the *entire* plant site, not only from or to individual plants on the plant site.

(b) *Quantities of exports or imports that trigger a declaration or report requirement.* (1) You have a declaration or report requirement and must complete the forms specified in paragraph (d) of this section if you exported or imported a Schedule 2 chemical in excess of the following threshold quantities:

(i) 1 kilogram of chemical BZ: 3-Quinuclidinyl benzilate (See Schedule 2, paragraph A.3 included in Supplement No. 1 to this part);

(ii) 100 kilograms of chemical PFIB: 1,1,3,3,3-Pentafluoro-2(trifluoromethyl)-1-propene or 100 kilograms of Amiton : O,O Diethyl S-

[2(diethylamino)ethyl] phosphorothiolate *and* corresponding alkylated or protonated salts (see Schedule 2, paragraphs A.1 and A.2 included in Supplement No.1 to this part);

(iii) 1 metric ton of any chemical listed in Schedule 2, Part B (see Supplement No.1 to this part).

(2) *Mixtures containing a Schedule 2 chemical.* The quantity of a Schedule 2 chemical contained in a mixture must be counted for the declaration or reporting of an export or import only if the concentration of the Schedule 2 chemical in the mixture is 30% or more by volume or by weight, whichever yields the lesser percent.

NOTE 1 TO PARAGRAPH (b)(2). See §713.3(a)(2)(ii) for information on counting amounts of Schedule 2 chemicals contained in mixtures and determining declaration and report requirements.

NOTE 2 TO PARAGRAPH (b)(2). The "30% and above" mixtures rule applies only for declaration and report purposes. This rule does not apply for purposes of determining whether the export of your mixture to a non-State Party requires an End-Use Certificate or for determining whether you need an export license from the Department of Commerce (see §§742.2, 742.18 and 745.2 of the Export Administration Regulations) or from the Department of State (see the International Traffic in Arms Regulations (22 CFR parts 120 through 130).

(c) *Declaration and report requirements.*

(1) *Initial declaration.* A plant site described in paragraph (a)(1) of this section that has an initial declaration requirement for production, processing, or consumption of a Schedule 2 chemical must also declare the export or import of that same Schedule 2 chemical if the amount exported or imported in 1994, 1995 or 1996 exceeded the applicable threshold quantity set forth in paragraph (b)(1)(i) through (iii) of this section. For the initial declaration, the plant site must only declare the export or import information for any of the calendar years (1994, 1995 and/or 1996) in which the export or import exceeded the applicable threshold quantity.

(2) *Initial report on exports and imports.* Declared plant sites described in paragraph (a)(2) of this section, undeclared plant sites, trading companies or any other person subject to the CWC that exported or imported a Schedule 2

§713.4

15 CFR Ch. VII (1-1-04 Edition)

chemical in 1996 in excess of the applicable threshold quantity set forth in paragraph (b) of this section, must submit an initial report on exports or imports for calendar year 1996.

(3) *Annual declaration on past activities.* A plant site described in paragraph (a)(1) that has an annual declaration requirement for production, processing, or consumption of a Schedule 2 chemical for the previous calendar year, beginning in 1997, must also declare the export and/or import of that same Schedule 2 chemical if the amount exceeded the applicable threshold quantity set forth in paragraph (b). The plant site must declare the export or import information for that same Schedule 2 chemical as part of its annual declaration of past activities.

(4) *Annual report on exports and imports.* Declared plant sites described in paragraph (a)(2), and undeclared plant sites, trading companies or any other person subject to the CWCR that exported or imported a Schedule 2 chemical in a previous calendar year, beginning in 1997, in excess of the applicable threshold quantity set forth in paragraphs (b)(1) (i) through (iii) must submit an annual report on exports or imports.

(d) *Types of declaration and report forms to be used.* (1) *Initial declaration.* If you are a declared Schedule 2 plant site as described in paragraph (a)(1), you must complete Form 2-3B in addition to the forms required by §713.3(b)(1). You must complete the forms for each declared Schedule 2 chemical and for each of the calendar years 1994, 1995, and 1996, in which the export or import exceeded the applicable threshold quantity.

(2) *Initial report on exports and imports.* (i) If you are a declared plant site as described in paragraph (a)(2), you may fulfill your reporting requirements by:

(A) Submitting, along with your initial declaration, a Form 2-3B for each Schedule 2 chemical you exported or imported above the applicable threshold quantity. Attach Form A, as appropriate; Form B is optional.

(B) Submitting, separately from your initial declaration, a Certification Form, Form 2-1, and Form 2-3B for each Schedule 2 chemical you exported or imported above the applicable

threshold quantity. Attach Form A, as appropriate; Form B is optional.

(ii) If you are an undeclared plant site or trading company, you must complete the Certification Form, Form 2-1, and Form 2-3B for each Schedule 2 chemical you exported or imported above the applicable threshold quantity. Attach Form A, as appropriate; Form B is optional.

(3) *Annual declaration on past activities.* If you are a declared Schedule 2 plant site as described in paragraph (a)(1), you must complete Form 2-3B, in addition to the forms required by §713.3(b)(2), for each declared Schedule 2 chemical exported or imported above the applicable threshold quantity in the previous calendar year.

(4) *Annual report on exports and imports.* (i) If you are a declared plant site as described in paragraph (a)(2), you may fulfill your annual reporting requirements by:

(A) Submitting, along with your annual declaration on past activities, a Form 2-3B for each Schedule 2 chemical you exported or imported above the applicable threshold quantity. Attach Form A, as appropriate; Form B is optional.

(B) Submitting, separately from your annual declaration on past activities, a Certification Form, Form 2-1, and Form 2-3B for each Schedule 2 chemical you exported or imported above the applicable threshold quantity. Attach Form A, as appropriate; Form B is optional.

(ii) If you are an undeclared plant site, trading company or any other person subject to the CWCR, you must complete the Certification Form, Form 2-1, and Form 2-3B for each Schedule 2 chemical you exported or imported above the applicable threshold quantity. Attach Form A, as appropriate; Form B is optional.

(e) *Quantities to be declared.* (1) *Calculations.* If you exported from or imported to your plant site, trading company, or other location more than the applicable threshold quantity of a Schedule 2 chemical, you must declare or report all exports and imports by destination, and indicate the total amount exported to or imported from each destination. Only indicate the total annual quantity exported to or

imported from a specific destination if the total annual quantity to or from that destination is more than 1% of the applicable threshold (i.e., more than 10 grams of BZ, 1 kilogram of PFIB and Amiton and corresponding alkylated or protonated salts, or 10 kilograms of all other Schedule 2 chemicals). However, in determining whether your total exports and imports worldwide for the year in question trigger a declaration or report requirement, you must include all exports and imports, including exports and imports falling within the 1% exemption in your calculation.

(2) *Rounding.* For purposes of declaring or reporting exports and imports of a Schedule 2 chemical, you must total all exports and imports per calendar year per recipient or source destination and then round as follows: for the chemical BZ, the total quantity for each destination should be reported to the nearest hundredth of a kilogram (10 grams); for PFIB and Amiton and corresponding alkylated or protonated salts, the quantity for each destination should be reported to the nearest 1 kilogram; and for all other Schedule 2 chemicals, the total quantity for each destination should be reported to the nearest 10 kilograms.

§ 713.5 Advance declaration requirements for additionally planned production, processing, or consumption of Schedule 2 chemicals.

(a) *Declaration requirements for additionally planned activities.* (1) You must declare additionally planned production, processing, or consumption of Schedule 2 chemicals after the annual declaration on anticipated activities for the next calendar year has been delivered to BIS if:

(i) You plan that a previously undeclared plant on your plant site under § 713.3(a)(1)(iii) will produce, process, or consume a Schedule 2 chemical above the applicable declaration threshold;

(ii) You plan to produce, process, or consume at a plant declared under § 713.3(a)(1)(iii) an additional Schedule 2 chemical above the applicable declaration threshold;

(iii) You plan an additional activity (production, processing, or consumption) at your declared plant above the

applicable declaration threshold for a chemical declared under § 713.3(a)(1)(iii);

(iv) You plan to increase the production, processing, or consumption of a Schedule 2 chemical by a plant declared under § 713.3(a)(1)(iii) from the amount exceeding the applicable declaration threshold to an amount exceeding the applicable inspection threshold (see § 716.1(b)(2));

(v) You plan to change the starting or ending date of anticipated production, processing, or consumption declared under § 713.3(a)(1)(iii) by more than three months; or

(vi) You plan to increase your production, processing, or consumption of a Schedule 2 chemical by a declared plant site by 20 percent or more above that declared under § 713.3(a)(1)(iii).

(2) If you must submit a declaration on additionally planned activities because you plan to engage in any of the activities listed in paragraphs (a)(1) (i) through (vi) of this section, you should also declare changes to your declaration relating to the following activities. You do not have to submit an additionally planned declaration if you are only changing the following non-quantitative activities:

(i) Changes to the plant's production capacity;

(ii) Changes or additions to the product group codes for the plant site or the plant(s);

(iii) Changes to the plant's activity status (i.e., dedicated, multipurpose, or other status);

(iv) Changes to the plant's multipurpose activities;

(v) Changes to the plant site's status relating to domestic transfer of the chemical;

(vi) Changes to the plant site's purposes for which the chemical will be produced, processed or consumed; or

(vii) Changes to plant site's status relating to exports of the chemical or the addition of new countries for export (not to exceed 10 countries).

(b) *Declaration forms to be used.* If you are required to declare additionally planned activities pursuant to paragraph (a) of this part, you must complete the Certification Form and Forms 2-1, 2-2, 2-3, and 2-3C as appropriate. Such forms are due to BIS at
