sites with bulk supplies of coupons. Such a sub-unit would not be classified as a bulk storage point. Certification offices may issue coupons in emergency situations or to meet the requirements of expedited service but do not routinely issue coupons to households under standard certifications. In these and similar situations, the sub-unit would be classified based upon its primary function exclusively. However, when any sub-unit is selected, all program requirements specified in § 275.8 which the sub-unit has responsibility for, shall be reviewed.

(d) *Itinerant issuance and certification points.* Units which certify households and/or issue coupons as satellites of a central sub-unit shall not be classified as independent sub-units. Units may be identified as itinerant when they do not operate on a regular basis, retain certification records, store coupons, transmit information directly to the DMU and/or develop FNS-250 reports independently. Examples of such units include mobile units, short term or seasonal operations, and units which may operate on a regular basis but do not meet the criteria for a sub-unit described in paragraph (a) of this section. However, when a sub-unit is selected for review which acts as a parent unit for itinerant service points, at least one itinerant point per sub-unit shall be reviewed if operational at the time of the review.

(e) *Selection of Sub-units for Review.* State agencies shall select a representative number of sub-units of each category for on-site review in order to determine a project area's compliance with program standards.

### § 275.8 Review coverage.

(a) During each review period, State agencies shall review the national target areas of program operation specified by FNS. FNS will notify State agencies of the minimum program areas to be reviewed at least 90 days before the beginning of each annual review period, which is the Federal fiscal year. FNS may add additional areas during the review period if deemed nec-

essary. The FNS headquarters office will add national target areas during the review period only for deficiencies of national scope. State agencies have 60 days in which to establish a plan schedule for such reviews.

(b) State agencies shall be responsible for reviewing each national target area or other program requirement based upon the provisions of the regulations governing the Food Stamp Program and the FNS-approved Plan of Operation. If FNS approves a State agency's request for a waiver from a program requirement, any different policy approved by FNS would also be reviewed. When, in the course of a review, a project area is found to be out of compliance with a given program requirement, the State agency shall identify the specifics of the problem including: the extent of the deficiency, the cause of the deficiency, and, as applicable, the specific procedural requirements the project area is misapplying.

### § 275.9 Review process.

(a) *Review procedures.* State agencies shall review the program requirements specified for review in § 275.8 of this part using procedures that are adequate to identify problems and the causes of those problems. As each project area's operational structure will differ, State agencies shall review each program requirement applicable to the project area in a manner which will best measure the project area's compliance with each program requirement.

(b) *ME review plan.* (1) State agencies shall develop a review plan prior to each ME review. This review plan shall specify whether each project area is large, medium, or small and shall contain:

(i) Identification of the project area to be reviewed, program areas to be reviewed, the dates the review will be conducted, and the period of time that the review will cover;

(ii) Information secured from the project area regarding its caseload and organization;

(iii) Identification of the certification offices, issuance offices, bulk storage points, reporting points, and
