

§ 4022.5

(1) The benefit was in pay status on the date of the termination of the plan.

(2) A benefit payable at normal retirement age is an optional form of payment to the benefit otherwise payable at such age and the participant elected the benefit before the termination date of the plan.

(3) Except for a benefit described in paragraph (a)(2) of this section, before the termination date (or on or before the termination date, in the case of a requirement that a participant attain a particular age, earn a particular amount of service, become disabled, or die) the participant had satisfied the conditions of the plan necessary to establish the right to receive the benefit prior to such date (prior to or on such date, in the case of a requirement that a participant attain a particular age, earn a particular amount of service, become disabled, or die) other than application for the benefit, satisfaction of a waiting period described in the plan, or retirement; or

(4) Absent an election by the participant, the benefit would be payable upon retirement.

(5) In the case of a benefit that returns all or a portion of a participant's accumulated mandatory employee contributions upon death, the participant (or beneficiary) had satisfied the conditions of the plan necessary to establish the right to the benefit other than death or designation of a beneficiary.

(b) If none of the conditions set forth in paragraph (a) of this section is met, the PBGC will determine whether the participant is entitled to a benefit on the basis of the provisions of the plan and the circumstances of the case.

[61 FR 34028, July 1, 1996, as amended at 67 FR 16954, Apr. 8, 2002]

§ 4022.5 Determination of nonforfeitable benefits.

(a) A guaranteed benefit payable to a surviving beneficiary is not considered to be forfeitable solely because the plan provides that the benefit will cease upon the remarriage of such beneficiary or his attaining a specified age. However, the PBGC will observe the provisions of the plan relating to the effect of such remarriage or attainment of such specified age on the sur-

viving beneficiary's eligibility to continue to receive benefit payments.

(b) Any other provision in a plan that the right to a benefit in pay status will cease or be suspended upon the occurrence of any specified condition does not automatically make that benefit forfeitable. In each such case the PBGC will determine whether the benefit is forfeitable.

(c) A benefit guaranteed under § 4022.6 shall not be considered forfeitable solely because the plan provides that upon recovery of the participant the benefit will cease.

§ 4022.6 Annuity payable for total disability.

(a) Except as provided in paragraph (b) of this section, an annuity which is payable (or would be payable after a waiting period described in the plan, whether or not the participant is in receipt of other benefits during such waiting period), under the terms of a plan on account of the total and permanent disability of a participant which is expected to last for the life of the participant and which began on or before the termination date is considered to be a pension benefit.

(b) In any case in which the PBGC determines that the standards for determining such total and permanent disability under a plan were unreasonable, or were modified in anticipation of termination of the plan, the disability benefits payable to a participant under such standard shall not be guaranteed unless the participant meets the standards of the Social Security Act and the regulations promulgated thereunder for determining total disability.

(c) For the purpose of this section, a participant may be required, upon the request of the PBGC, to submit to an examination or to submit proof of continued total and permanent disability. If the PBGC finds that a participant is no longer so disabled, it may suspend, modify, or discontinue the payment of the disability benefit.

[61 FR 34028, July 1, 1996, as amended at 67 FR 16954, Apr. 8, 2002]

§ 4022.7 Benefits payable in a single installment.

(a) *Alternative benefit.* If a benefit that is guaranteed under this part is

payable in a single installment or substantially so under the terms of the plan, or an option elected under the plan by the participant, the benefit will not be guaranteed or paid as such, but the PBGC will guarantee the alternative benefit, if any, in the plan which provides for the payment of equal periodic installments for the life of the recipient. If the plan provides more than one such annuity, the recipient may within 30 days after notification of the proposed termination of the plan elect to receive one of those annuities. If the plan does not provide such an annuity, the PBGC will guarantee an actuarially equivalent life annuity.

(b)(1) *Payment in lump sum.* Notwithstanding paragraph (a) of this section:

(i) *In general.* If the lump sum value of a benefit (or of an estimated benefit) payable by the PBGC is \$5,000 or less and the benefit is not yet in pay status, the benefit (or estimated benefit) may be paid in a lump sum.

(ii) *Annuity option.* If the PBGC would otherwise make a lump sum payment in accordance with paragraph (b)(1)(i) of this section and the monthly benefit (or the estimated monthly benefit) is equal to or greater than \$25 (at normal retirement age and in the normal form for an unmarried participant), the PBGC will provide the option to receive the benefit in the form of an annuity.

(iii) *Election of QPSA lump sum.* If the lump sum value of annuity payments under a qualified preretirement survivor annuity (or under an estimated qualified preretirement survivor annuity) is \$5,000 or less, the benefit is not yet in pay status, and the participant dies after the termination date, the benefit (or estimated benefit) may be paid in a lump sum if so elected by the surviving spouse.

(iv) *Payments to estates.* The PBGC may pay any annuity payments payable to an estate in a single installment without regard to the threshold in paragraph (b)(1)(i) of this section if so elected by the estate. The PBGC will discount the annuity payments using the federal mid-term rate (as determined by the Secretary of the Treasury pursuant to section 1274(d)(1)(C)(ii) of the Code) applicable for the month the

participant died based on monthly compounding.

(2) *Return of employee contributions—*(i) *General.* Notwithstanding any other provision of this part, the PBGC may pay in a single installment (or a series of installments) instead of as an annuity, the value of the portion of an individual's basic-type benefit derived from mandatory employee contributions, if:

(A) The individual elects payment in a single installment (or a series of installments) before the sixty-first (61st) day after the date he or she receives notice that such an election is available; and

(B) Payment in a single installment (or a series of installments) is consistent with the plan's provisions. For purposes of this part, the portion of an individual's basic-type benefit derived from mandatory employee contributions is determined under §4044.12 (priority category 2 benefits) of this chapter, and the value of that portion is computed under the applicable rules contained in part 4044, subpart B, of this chapter.

(ii) *Set-off for distributions after termination.* The amount to be returned under paragraph (b)(2)(i) of this section is reduced by the set-off amount. The set-off amount is the amount by which distributions made to the individual after the termination date exceed the amount that would have been distributed, exclusive of mandatory employee contributions, if the individual had withdrawn the mandatory employee contributions on the termination date.

Example: Participant A is receiving a benefit of \$600 per month when the plan terminates, \$200 of which is derived from mandatory employee contributions. If the participant had withdrawn his contributions on the termination date, his benefit would have been reduced to \$400 per month. The participant receives two monthly payments after the termination date. The set-off amount is \$400. (The \$600 actual payment minus the \$400 the participant would have received if he had withdrawn his contributions multiplied by the two months for which he received the extra payment.)

(c) *Death benefits—*(1) *General.* Notwithstanding paragraph (a) of this section, a benefit that would otherwise be guaranteed under the provisions of this subpart, except for the fact that it is payable solely in a single installment

(or substantially so) upon the death of a participant, shall be paid by the PBGC as an annuity that has the same value as the single installment. The PBGC will in each case determine the amount and duration of the annuity based on all the facts and circumstances.

(2) *Exception.* Upon the death of a participant the PBGC may pay in a single installment (or a series of installments) that portion of the participant's accumulated mandatory employee contributions that is payable under the plan in a single installment (or a series of installments) upon the participant's death.

(d) *Determination of lump sum amount.* For purposes of paragraph (b)(1) of this section—

(1) *Benefits disregarded.* In determining whether the lump-sum value of a benefit is \$5,000 or less, the PBGC may disregard the value of any benefits the plan or the PBGC previously paid in lump-sum form or the plan paid by purchasing an annuity contract, the value of any benefits returned under paragraph (b)(2) of this section, and the value of any benefits the PBGC has not yet determined under section 4022(c) of ERISA.

(2) *Actuarial assumptions.* The PBGC will calculate the lump sum value of a benefit by valuing the monthly annuity benefits payable in the form determined under §4044.51(a) of this chapter and commencing at the time determined under §4044.51(b) of this chapter. The actuarial assumptions used will be those described in §4044.52, except that—

(i) *Loading for expenses.* There will be no adjustment to reflect the loading for expenses;

(ii) *Mortality rates and interest assumptions.* The mortality rates in appendix A to this part and the interest assumptions in appendix B to this part will apply; and

(iii) *Date for determining lump sum value.* The date as of which a lump sum value is calculated is the termination date, except that in the case of a subsequent insufficiency it is the date described in section 4062(b)(1)(B) of ERISA.

(e) *Publication of lump sum rates.* The PBGC will provide two sets of lump sum interest rates as follows—

(1) In appendix B to this part, the lump sum interest rates for PBGC payments, as provided under paragraph (d)(2) of this section; and

(2) In appendix C to this part, the lump sum interest rates for private-sector payments.

§ 4022.8 Form of payment.

(a) *In general.* This section applies where benefits are not already in pay status. Except as provided in §4022.7 (relating to the payment of lump sums), the PBGC will pay benefits—

(1) In the automatic PBGC form described in paragraph (b) of this section; or

(2) If an optional PBGC form described in paragraph (c) of this section is elected, in that optional form.

(b) *Automatic PBGC form.* (1) *Participants.* (i) *Married participants.* The automatic PBGC form with respect to a participant who is married at the time the benefit enters pay status is the form a married participant would be entitled to receive from the plan in the absence of an election.

(ii) *Unmarried participants.* The automatic PBGC form with respect to a participant who is unmarried at the time the benefit enters pay status is the form an unmarried person would be entitled to receive from the plan in the absence of an election.

(2) *Beneficiaries.* (i) *QPSA beneficiaries.* The automatic PBGC form with respect to the spouse of a married participant in a plan with a termination date on or after August 23, 1984, who dies before his or her benefit enters pay status is the qualified preretirement survivor annuity such a spouse would be entitled to receive from the plan in the absence of an election. The PBGC will not charge the participant or beneficiary for this survivor benefit coverage for the time period beginning on the plan's termination date (regardless of whether the plan would have charged).

(ii) *Alternate payees.* The automatic PBGC form with respect to an alternate payee with a separate interest
