

§ 8.5

administration and supervision of the Reserve.

(c) In Atlantic Area, Integrated Support Commands have responsibility for local Reserve issues; however, in Pacific Area, responsibility for local Reserve issues remains with District Commanders.

(d) Most Coast Guard Reservists are fully integrated into active duty Coast Guard units. There, Reservists perform the same duties and have the same responsibilities as their active duty counterparts. Their integrated work prepares Reservists to perform the duties of their mobilization assignments while at the same time providing assistance to the active service. Some Reservists are assigned to dedicated Reserve units where they train and mobilize in support of national defense operations.

Subpart 13.01—Gold and Silver Lifesaving Medals, Bars, and Miniatures

§ 13.01-1 General.

Lifesaving Medals of gold and silver, designated as the Gold Lifesaving Medal and the Silver Lifesaving Medal, respectively, may be awarded by the Commandant, U.S. Coast Guard, hereinafter called the Commandant, under 14 U.S.C. 500 and the regulations in this subpart to persons rescuing or endeavoring to rescue any other person from drowning, shipwreck or other peril of the water.

§ 13.01-5 Gold and Silver Lifesaving Medals.

Lifesaving Medals may be awarded to any person who rescues or endeavors to

rescue any other person from drowning, shipwreck or other peril of the water. In order for a person to be eligible for a Lifesaving Medal the rescue or attempted rescue must take place in waters within the United States or subject to the jurisdiction thereof, or if the rescue or attempted rescue takes place outside such waters, one or the other of the parties must be a citizen of the United States or from a vessel or aircraft owned or operated by citizens of the United States. If such rescue or attempted rescue is made at the risk of one's own life and evidences extreme and heroic daring, the medal shall be of gold. If such rescue or attempted rescue is not sufficiently distinguished to deserve the medal of gold but evidences the exercise of such signal exertion as to merit recognition, the medal shall be of silver. Lifesaving Medals may be awarded posthumously.

§ 13.01-10 Gold and silver bars.

No person shall receive more than one Gold Lifesaving Medal and one Silver Lifesaving Medal; but any person who has received or may hereafter receive a Gold or Silver Lifesaving Medal and who again performs an act which would entitle him to receive another medal of the same class, may be awarded, in lieu of a second medal of the same class, a gold or silver bar, as the case may be, to be worn with the medal already bestowed, and for every such additional act, an additional bar may be awarded. Gold and silver bars may be awarded posthumously.

§ 13.01-15 Applications and recommendations.

(a) All administrative details pertaining to the award of Lifesaving Medals are under the jurisdiction of the Commandant. Applications and recommendations for the award of a Lifesaving Medal may be filed by or in behalf of the person making or attempting a rescue under circumstances contemplated by the regulations in this subpart. Applications or recommendations for award of medals or requests for information pertaining thereto should be addressed to the Commander of the Coast Guard District, hereinafter called the District Commander, where the incident took place. (See

part 3 of this subchapter for descriptions of Coast Guard Districts.) If the District is unknown, or if the incident took place outside any such district, applications and recommendations should be addressed to the Commandant, U.S. Coast Guard, Washington, D.C. 20593.

(b) Completed applications must include:

(1) Satisfactory evidence of the services performed, in the form of affidavits, made by eyewitnesses of good repute and standing testifying of their own knowledge. The opinion of witnesses that the person for whom an award is sought imperiled his or her own life or made signal exertions is not sufficient but the affidavits must set forth in detail all facts and occurrences tending to show clearly in what manner and to what extent life was risked or signal exertions made so that the Commandant may judge for himself as to the degree of merit involved.

(2) The precise locality of the rescue or attempted rescue, whether from waters within the United States or subject to the jurisdiction thereof, or if the rescue or attempted rescue is outside such waters, whether one or the other of the parties is a citizen of the United States, or from a vessel or aircraft owned or operated by citizens of the United States, shall be stated. The date, time of day, nature of the weather, condition of the water, the names of all persons present when practicable, the names of all persons rendering assistance, and all pertinent circumstances and data, showing the precise nature and degree of risk involved, should be stated.

(c) Recommendations must include:

(1) As much of the information indicated in paragraphs (b) (1) and (2) of this section which is available to the person making the recommendation. Upon receipt the Commandant or the cognizant District Commander shall cause such recommendation to be referred to an investigating officer who shall cause to be developed such additional information and evidence as is deemed necessary to either (i) terminate the investigation as containing insufficient justification to continue
