

2.2.1 Notification requirements and procedures.

2.2.2 Communication system(s) used for the notifications.

2.2.3 Procedures to mitigate or prevent any discharge or a substantial threat of a discharge of oil resulting from—

2.2.3.1 Operational activities associated with internal or external cargo transfers;

2.2.3.2 Grounding or stranding;

2.2.3.3 Collision;

2.2.3.4 Explosion or fire;

2.2.3.5 Hull failure;

2.2.3.6 Excessive list; or

2.2.3.7 Equipment failure.

2.2.4 Procedures and arrangements for emergency towing.

2.2.5 When performing shipboard mitigation measures—

2.2.5.1 Ship salvage procedures;

2.2.5.2 Damage stability; and

2.2.5.3 Hull stress considerations.

2.2.6 Procedures for transferring responsibility for direction of response activities from vessel and facility personnel to the spill management team.

2.2.7 Familiarity with the operational capabilities of the contracted oil spill removal organizations and the procedures to notify and activate such organizations.

2.2.8 Familiarity with the contracting and ordering procedures to acquire oil spill removal organization resources.

2.2.9 Familiarity with the Area Contingency Plans.

2.2.10 Familiarity with the organizational structures that will be used to manage the response actions.

2.2.11 Responsibilities and duties of the spill management team members in accordance with designated job responsibilities.

2.2.12 Responsibilities and authority of the qualified individual as described in the vessel response plan and company response organization.

2.2.13 Responsibilities of designated individuals to initiate a response and supervise shore-based response resources.

2.2.14 Actions to take, in accordance with designated job responsibilities, in the event of a transfer system leak, tank overflow, or suspected cargo tank or hull leak.

2.2.15 Information on the cargoes handled by the vessel or facility, including familiarity with—

2.2.15.1 Cargo material safety data sheets;

2.2.15.2 Chemical characteristics of the cargo;

2.2.15.3 Special handling procedures for the cargo;

2.2.15.4 Health and safety hazards associated with the cargo; and

2.2.15.5 Spill and firefighting procedures for the cargo.

2.2.16 Occupational Safety and Health Administration requirements for worker health and safety (29 CFR 1910.120).

3. Further Considerations

In drafting the training section of the response plan, some further considerations are noted below (these points are raised simply as a reminder):

3.1 The training program should focus on training provided to vessel personnel.

3.2 An organization is comprised of individuals, and a training program should be structured to recognize this fact by ensuring that training is tailored to the needs of the individuals involved in the program.

3.3 An owner or operator may identify equivalent work experience which fulfills specific training requirements.

3.4 The training program should include participation in periodic announced and unannounced exercises. This participation should approximate the actual roles and responsibilities of individuals as specified in the response plan.

3.5 Training should be conducted periodically to reinforce the required knowledge and to ensure an adequate degree of preparedness by individuals with responsibilities under the vessel response plan.

3.6 Training may be delivered via a number of different means; including classroom sessions, group discussions, video tapes, self study workbooks, resident training courses, on-the-job training, or other means as deemed appropriate to ensure proper instruction.

3.7 New employees should complete the training program prior to being assigned job responsibilities which require participation in emergency response situations.

4. Conclusion

The information in this appendix is only intended to assist response plan preparers in reviewing the content of and in modifying the training section of their response plans. It may be more comprehensive than is needed for some vessels and not comprehensive enough for others. The Coast Guard expects that plan preparers have determined the training needs of their organizations created by the development of the response plans and the actions identified as necessary to increase the preparedness of the company and its personnel to respond to actual or threatened discharges of oil from their vessels.

PART 156—OIL AND HAZARDOUS MATERIAL TRANSFER OPERATIONS

Subpart A—Oil and Hazardous Material Transfer Operations

Sec.

156.100 Applicability.

156.105 Definitions.

156.107 Alternatives.

§ 156.100

33 CFR Ch. I (7–1–04 Edition)

- 156.110 Exemptions.
- 156.111 Incorporation by reference.
- 156.112 Suspension order.
- 156.113 Compliance with suspension order.
- 156.115 Person in charge: Limitations.
- 156.118 Advance notice of transfer.
- 156.120 Requirements for transfer.
- 156.125 Discharge cleanup.
- 156.130 Connection.
- 156.150 Declaration of inspection.
- 156.160 Supervision by person in charge.
- 156.170 Equipment tests and inspections.

Subpart B—Special Requirements for Lightering of Oil and Hazardous Material Cargoes

- 156.200 Applicability.
- 156.205 Definitions.
- 156.210 General.
- 156.215 Pre-arrival notices.
- 156.220 Reporting of incidents.
- 156.225 Designation of lightering zones.
- 156.230 Factors considered in designating lightering zones.

Subpart C—Lightering Zones and Operational Requirements for the Gulf of Mexico

- 156.300 Designated lightering zones.
- 156.310 Prohibited areas.
- 156.320 Maximum operating conditions.
- 156.330 Operations.

AUTHORITY: 33 U.S.C. 1231, 1321(j); 46 U.S.C. 3703a, 3715; E.O. 11735, 3 CFR 1971–1975 Comp., p. 793. Section 156.120(bb) and (ee) are also issued under 46 U.S.C. 3703.

Subpart A—Oil and Hazardous Material Transfer Operations

§ 156.100 Applicability.

This subpart applies to the transfer of oil or hazardous material on the navigable waters or contiguous zone of the United States to, from, or within each vessel with a capacity of 250 barrels or more; except that, this subpart does not apply to transfer operations within a public vessel.

[CGD 86–034, 55 FR 36255, Sept. 4, 1990]

§ 156.105 Definitions.

Except as specifically stated in a section, the definitions in §154.105 of this chapter apply to this subpart.

[CGD 90–071a, 59 FR 53291, Oct. 21, 1994]

§ 156.107 Alternatives.

(a) The COTP may consider and approve alternative procedures, methods,

or equipment standards to be used by a vessel or facility operator in lieu of any requirements in this part if:

(1) Compliance with the requirement is economically or physically impractical;

(2) The vessel or facility operator submits a written request for the alternative at least 30 days before operations under the alternative are proposed, unless the COTP authorizes a shorter time; and

(3) The alternative provides an equivalent level of safety and protection from pollution by oil or hazardous material, which is documented in the request.

(b) The COTP takes final approval or disapproval action on any alternative requested, in writing, within 30 days of receipt of the request.

[CGD 75–124, 45 FR 7177, Jan. 31, 1980, as amended by CGD 86–034, 55 FR 36255, Sept. 4, 1990]

§ 156.110 Exemptions.

(a) The Assistant Commandant for Marine Safety, Security and Environmental Protection, acting for the Commandant, may grant an exemption or partial exemption from compliance with any requirement in this part, and the District Commander may grant an exemption or partial exemption from compliance with any operating condition or requirement in subpart C of this part, if:

(1) The vessel or facility operator submits an application for exemption via the COTP at least 30 days before operations under the exemption are proposed, unless the COTP authorizes a shorter time; and

(2) It is determined, from the application, that:

(i) Compliance with a specific requirement is economically or physically impractical;

(ii) No alternative procedures, methods, or equipment standards exist that would provide an equivalent level of safety and protection from pollution by oil or hazardous material; and

(iii) The likelihood of oil or hazardous material being discharged as a result of the exemption is minimal.

(b) If requested, the applicant must submit any appropriate information,
