

project, the Corps of Engineers and the non-Federal sponsor shall prepare a Pilot Project Design Report.

(1) The Pilot Project Design Report shall contain the technical information necessary to construct the pilot project including engineering and design, cost estimates, real estate analyses, and appropriate NEPA documentation.

(2) The Pilot Project Design Report shall include a detailed operational testing and monitoring plan necessary to develop information to assist in better determining the technical feasibility of certain components prior to development of a Project Implementation Report.

(3) In accordance with §385.18, the Corps of Engineers and the non-Federal sponsor shall provide the public with opportunities to review and comment on the draft Pilot Project Design Report.

(4) The Corps of Engineers and the non-Federal sponsor shall approve the final Pilot Project Design Report in accordance with applicable law.

(d) Upon completion of operational testing and monitoring, the Corps of Engineers and the non-Federal sponsor shall, in consultation with the Department of the Interior, the Environmental Protection Agency, the Department of Commerce, the Miccosukee Tribe of Indians of Florida, the Seminole Tribe of Florida, the Florida Department of Environmental Protection, and other Federal, State, and local agencies, prepare a Pilot Project Technical Data Report, documenting the findings and conclusions from the operational testing and monitoring of the pilot project. The purpose of the Pilot Project Technical Data Report is to help assess the viability of technology and to assist in the development of the full-scale project. The Corps of Engineers and the non-Federal sponsor shall also consult with the South Florida Ecosystem Restoration Task Force in preparing the report.

(1) In accordance with §385.22(b), the draft Pilot Project Technical Data Report shall be externally peer reviewed.

(2) In accordance with §385.18, the public shall be provided with opportunities to review and comment on the draft Pilot Project Technical Data Report.

(3) The final Pilot Project Technical Data Report shall be made available to the public.

§385.13 Projects implemented under additional program authority.

(a) To expedite implementation of the Plan, the Corps of Engineers and non-Federal sponsors may implement projects under the authority of section 601(c) of WRDA 2000 that are described in the Plan and that will produce a substantial benefit to the restoration, preservation, and protection of the South Florida ecosystem.

(b) Each project implemented under the authority of section 601(c) of WRDA 2000 shall:

(1) In general, follow the process described in §385.11;

(2) Not be implemented until a Project Implementation Report is prepared and approved in accordance with §385.26; and

(3) Not exceed a total cost of \$25,000,000.

(c) The total aggregate cost of all projects implemented under the additional program authority shall not exceed \$206,000,000.

§385.14 Incorporation of NEPA and related considerations into the implementation process.

(a) *General.* (1) In implementing the Plan, the Corps of Engineers shall comply with the requirements of NEPA (42 U.S.C. 4371, *et seq.*) and applicable implementing regulations, including determining whether a specific action, when considered individually and cumulatively, will have a significant impact on the human environment.

(2) As appropriate, other agencies shall be invited to be cooperating agencies in the preparation of NEPA documentation pursuant to §230.16 of this chapter.

(3) The District Engineer is the NEPA official responsible for compliance with NEPA for actions conducted to implement the Plan. Unless otherwise provided for by this part, NEPA coordination for implementation of the plan shall follow the NEPA procedures established in part 230 of this chapter.

(b) *Actions normally requiring an Environmental Impact Statement (EIS).* (1) In addition to the actions listed in §230.6
