#### § 35.6500 General requirements.

(a) Force Account work is the use of the recipient’s own employees or equipment for construction, construction-related activities (including architecture and engineering services), or repair or improvement to a facility. When using Force Account work, the recipient must demonstrate that the employees can complete the work as competently as, and more economically than, contractors, or that an emergency necessitates the use of the Force Account.

### PROCUREMENT REQUIREMENTS UNDER A COOPERATIVE AGREEMENT

#### § 35.6550 Procurement system standards.

(a) *Recipient standards*—(1) *Procurement system evaluation.* (i) An applicant or recipient must evaluate its own procurement system to determine if the system meets the intent of the requirements of this subpart. After evaluating its procurement system, the applicant or recipient must complete the “Procurement System Certification” (EPA Form 5700-48) and submit the form to EPA with its application.

(ii) The certification will be valid for two years or for the length of the project period specified in the Cooperative Agreement, whichever is greater, unless the recipient substantially revises its procurement system or the award official determines that the recipient is not following the intent of the requirements in this part. (See sub-

(iv) 40 CFR 31.36(g)(2)(iv), “Awarding Agency Review,” regarding the review of proposed awards over \$25,000 which are to be awarded to other than the apparent low bidder under a sealed bid procurement.

(3) *Noncertified procurement system.* If the applicant or recipient has not certified that its procurement system meets the intent of the requirements of this subpart, then the recipient must follow the requirements of this subpart and allow EPA preaward review of proposed procurement actions that will use EPA funds. In addition, the recipient’s contractors and subcontractors must submit their cost or price data on EPA Form 5700-41, “Cost or Price Summary Format for Subagreements Under U.S. EPA Grants,” or in another format which provides information similar to that required by EPA Form 5700-41. This specific requirement is an addition to the requirements regarding cost and price analysis described in § 35.6585 of this subpart.
