(a) *Included services.* (1) Medicare Part B covers services furnished by a clinical psychologist, who meets the requirements specified in paragraph (d) of this section, that are within the scope of his or her State license, if the services would be covered if furnished by a physician or as an incident to a physician's services.

(2) Medicare Part B covers services and supplies furnished as an incident to the services of a clinical psychologist if the following requirements are met:

(i) The services and supplies would be covered if furnished by a physician or as an incident to a physician's services.

(ii) The services or supplies are of the type that are commonly furnished in a physician's or clinical psychologist's office and are either furnished without charge or are included in the physician's or clinical psychologist's bill.

(iii) The services are an integral, although incidental, part of the professional services performed by the clinical psychologist.

(iv) The services are performed under the direct supervision of the clinical psychologist. For example, when services are performed in the clinical psychologist's office, the clinical psychologist must be present in the office suite and immediately available to provide assistance and direction throughout the time the service is being performed.

(1) Unless the beneficiary's primary care or attending physician has referred the beneficiary to the clinical psychologist, to inform the beneficiary that it is desirable for the clinical psychologist to consult with the beneficiary's attending or primary care physician (if the beneficiary has such a physician) to consider any conditions contributing to the beneficiary's symptoms.

(2) If the beneficiary assents to the consultation, in accordance with accepted professional ethical norms and taking into consideration patient confidentiality—

(i) To attempt, within a reasonable time after receiving the consent, to consult with the physician; and

(ii) If attempts to consult directly with the physician are not successful, to notify the physician, within a reasonable time, that he or she is furnishing services to the beneficiary.

(3) Unless the primary care or attending physician referred the beneficiary to the clinical psychologist, to document, in the beneficiary's medical record, the date the patient consented or declined consent to consultation, the date of consultation, or, if attempts to consult did not succeed, the date and manner of notification to the physician.
