

§ 2621.4

§ 2621.4 Application for selection of unsurveyed lands.

(a) The authorized officer will reject any application for selection of unsurveyed lands if: (1) The costs of survey of the lands would grossly exceed the average per-acre costs of surveying public lands under the rectangular system of surveys in the State in which the lands are located, or (2) if the conveyance of the lands would create serious problems in the administration of the remaining public lands or resources thereof or would significantly diminish the value of the remaining public lands. The term *remaining public lands* means the public lands from which the applied-for lands would be separated by survey.

(b) In addition to the provisions of this section, applications for selection of unsurveyed lands are subject to the provisions of subpart 2400.

§ 2622.0-8 Lands subject to selection.

Selections made in satisfaction of quantity and special grants can generally be made only from the vacant, unappropriated, nonmineral, surveyed public lands within the State to which the grant was made. If the lands are otherwise available for selection, the States may select lands which are withdrawn, classified, or reported as valuable for coal, phosphate, nitrate, potash, oil, gas, asphaltic minerals, sodium, or sulphur, provided that the appropriate minerals are reserved to the United States in accordance with and subject to the regulations of subpart 2093.

Subpart 2623—School Land Grants to Certain States Extended To Include Mineral Sections

SOURCE: 35 FR 9609, June 18, 1970, unless otherwise noted.

§ 2623.0-3 Authority.

(a) The first paragraph of section 1 of the Act approved January 25, 1927 (44 Stat. 1026; 43 U.S.C. 870), reads as follows:

That, subject to the provisions of paragraphs (a), (b), and (c) of this section, the several grants to the States of numbered sections in place for the support or in aid of common or public schools be, and they are hereby, extended to embrace numbered school sections mineral in character, unless land has been granted to and/or selected by and certified or approved, to any such State or States as indemnity or in lieu of any land so granted by numbered sections.

(b) The beneficiaries of this grant are the States of Arizona, California, Colorado, Idaho, Montana, Nebraska, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming. The grant also extends to the unsurveyed school sections reserved, granted, and confirmed to the State of Florida by the Act of Congress approved September 22, 1922 (42 Stat. 1017; 16 U.S.C. 483, 484).

(c) The additional grant thus made, subject to all the conditions in the statute making same, applies to school-section lands known to be of mineral character at the effective date

thereof as hereinafter defined. It does not include school-section lands non-mineral in character, those not known to be mineral in character at time of grant, but afterwards found to contain mineral deposits, such lands not being excepted from the grants theretofore made (*Wyoming et al. v. United States*, 255 U.S. 489-500, 501, 65 L. ed. 742-748), nor does it include lands in numbered school sections in lieu of or as indemnity for which lands were conveyed to the States first above named, or to the State of Florida with respect to school-section lands coming within the purview of the Act of September 22, 1922, prior to January 25, 1927.

(d) Determinations made prior to January 25, 1927, by the Secretary of the Interior or the Commissioner of the General Land Office to the effect that lands in school sections were excepted from school-land grants because of their known mineral character do not, of themselves, prevent or affect in any way the vesting of title in the States pursuant to the provisions of the statute making the additional grant.

(e) Subsection (a) of section 1 of the Act provides:

That the grant of numbered mineral sections under this Act shall be of the same effect as prior grants for the numbered non-mineral sections, and title to such numbered mineral sections shall vest in the States at the time and in the manner and be subject to all the rights of adverse parties recognized by existing law in the grants of numbered nonmineral sections.

§ 2623.0-8 Lands subject to selection.

(a) *Lands included in grant.* (1) Section 2 of the Act of January 25, 1927 (44 Stat. 1027; 43 U.S.C. 871) reads as follows:

SEC. 2. That nothing herein contained is intended or shall be held or construed to increase, diminish, or affect the rights of States under grants other than for the support of common or public schools by numbered school sections in place, and this Act shall not apply to indemnity of lieu selections or exchanges or the right hereafter to select indemnity for numbered school sec-

tions in place lost to the State under the provisions of this or other Acts, and all existing laws governing such grants and indemnity or lieu selections and exchanges are hereby continued in full force and effect.

(2) The only grants affected in any way by the provisions of the Act of January 25, 1927, are those of numbered sections of land in place made to the States for the support of common or public schools. The adjudication of claims to land asserted under other grants, for indemnity or lieu lands and exchanges of lands, will proceed as theretofore, being governed by the provisions of existing laws applicable thereto. The States will be afforded full opportunity, however, if the facts and conditions are such as to authorize such action, either to assign new base in support of or to withdraw pending unapproved indemnity school land selections in support of which mineral school-section lands have been tendered as base.

(b) *Lands excluded from grant.* (1) Subsection (c) of section 1 of the Act of January 25, 1927, provides:

That any lands included within the limits of existing reservations of or by the United States, or specifically reserved for water-power purposes, or included in any pending suit or proceedings in the courts of the United States, or subject to or included in any valid application, claim, or right initiated or held under any of the existing laws of the United States, unless or until such application, claim, or right is relinquished or canceled, and all lands in the Territory of Alaska are excluded from the provisions of this act.

(2) School-section lands included within the limits of existing reservations of or by the United States, specifically reserved for waterpower purposes, or included in any suit or proceedings in the courts of the United States, prior to January 25, 1927, and all lands in Alaska are excluded from the provisions of the Act. (§ 2623.4)

(3) The words *existing reservation* as used in subsection (c) are construed generally and subject to specific determination in particular cases if the need therefor shall arise, as including Indian and military reservations, naval and petroleum reserves, national parks, national forests, stock driveways, reservations established under the Act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141-
