

§ 2650.5-2

specifically required by law or for good cause in the public interest.

[38 FR 14218, May 30, 1973, as amended at 50 FR 15547, Apr. 19, 1985]

§ 2650.5-2 Rule of approximation.

To assure full entitlement, the rule of approximation may be applied with respect to the acreage limitations applicable to conveyances and surveys under this authority, i.e., any excess must be less than the deficiency would be if the smallest legal subdivision were eliminated (see 62 I.D. 417, 421).

§ 2650.5-3 Regional surveys.

Lands to be conveyed to a regional corporation, when selected in contiguous units, shall be grouped together for the purpose of survey and surveyed as one tract, with monuments being established on the exterior boundary at angle points and at intervals of approximately 2 miles on straight lines. If requested by the grantee, the Secretary may survey, insofar as practicable, the individual selections that comprise the total tract.

§ 2650.5-4 Village surveys.

(a) Only the exterior boundaries of contiguous entitlements for each village corporation will be surveyed. Where land within the outer perimeter of a selection is not selected, the boundaries along the area excluded shall be deemed exterior boundaries. The survey will be made after the total acreage entitlement of the village has been selected.

(b) Surveys will be made within the village corporation selections to delineate those tracts required by law to be conveyed by the village corporations pursuant to section 14(c) of the Act.

(c) (1) The boundaries of the tracts described in paragraph (b) of this section shall be posted on the ground and shown on a map which has been approved in writing by the affected village corporation and submitted to the Bureau of Land Management. Conflicts arising among potential transferees identified in section 14(c) of the Act, or between the village corporation and such transferees, will be resolved prior to submission of the map. Occupied lots to be surveyed will be those which were occupied as of December 18, 1971.

43 CFR Ch. II (10-1-04 Edition)

(2) Lands shown by the records of the Bureau of Land Management as not having been conveyed to the village corporation will be excluded by adjustments on the map by the Bureau of Land Management. No surveys shall begin prior to final written approval of the map by the village corporation and the Bureau of Land Management. After such written approval, the map will constitute a plan of survey. Surveys will then be made in accordance with the plan of survey. No further changes will be made to accommodate additional section 14(c) transferees, and no additional survey work desired by the village corporation or municipality within the area covered by the plan of survey or immediately adjacent thereto will be performed by the Secretary.

§ 2650.5-5 Cemetery sites and historical places.

Only those cemetery sites and historical places to be conveyed under section 14(h)(1) of the Act shall be surveyed.

§ 2650.5-6 Adjustment to plat of survey.

All conveyances issued for lands not covered by officially approved surveys of the Bureau of Land Management shall note that upon the filing of an official plat of survey, the boundary of the selected area, described in terms of protraction diagrams or by metes and bounds, shall be redescribed in accordance with the plats of survey. However, no change will be made in the land selected.

§ 2650.6 Selection limitations.

(a) Notwithstanding any other provisions of the act, no village or regional corporation may select lands which are within 2 miles from the boundary of any home rule or first-class city (excluding boroughs) as the boundaries existed and the cities were classified on December 18, 1971, or which are within 6 miles from the boundary of Ketchikan, except that a village corporation organized by Natives of a community which is itself a first class or home-rule city is not prohibited from making selections within 2 miles from the boundary of that first class or home-rule city, unless such selections fall
