

§ 2812.0-7

43 CFR Ch. II (10-1-04 Edition)

by the Congress, or, where feasible, by using an existing duplicating road over which the Government has obtained road rights. In such circumstances, however, road cost and maintenance allowances made in the stumpage price of O. and C. timber will be required to be applied to the road which the Bureau has the right to use, and thereafter will not in any circumstances be available for amortization or maintenance costs of the applicant's road.

(g) When a right-of-way permit is issued for a road or road system over which the United States obtains rights of use for itself and its licensees, the authorized officer will seek to agree with the applicant respecting such matters as the time, route, and specifications for the future development of the road system involved; the portion of the capital and maintenance costs of the road system to be borne by the timber to be transported over the road system by the United States and its licensees; a formula for determining the proportion of the capacity of the road system which is to be available to the United States and its licensees for the transportation of forest products; and other similar matters respecting the use of the road by the United States and its licensees and the compensation payable therefor. To the extent that any such matter is not embraced in such an agreement, it will be settled by negotiation between the permittee and the individual licensees of the United States who use the road, and, in the event of their disagreement, by private arbitration between them in accordance with the laws of the State of Oregon.

(h) The authorized officer may in his discretion, issue short term right-of-way permits for periods not exceeding three years, subject to one-year extensions in his discretion. Such permits shall specify the volume of timber which may be carried over the right-of-way and the area from which such timber may be logged. The permits shall be revocable by the authorized officer, the State Director, or the Secretary for violation of their terms and conditions or of these regulations or if hazardous conditions result from the construction, maintenance or use of the rights-of-way by the permittees or those act-

ing under their authority. As a condition for the granting of such permits, the applicant must comply with §§ 2812.3-1 and 2812.3-3 of this subpart to the extent that rights-of-way and road use rights are needed to remove government timber offered for sale in the same general area during the period for which the short term right-of-way is granted.

(i) The authorized officer may, in his discretion, issue to private operators rights-of-way across O. and C. lands, needed for the conduct of salvage operations, for a period not to exceed five years. A salvage operation as used in this paragraph means the removal of trees injured or killed by windstorms, insect infestation, disease, or fire, together with any adjacent green timber needed to make an economic logging show. As a condition of the granting of such rights-of-way, the operator will be required, when the authorized officer deems it necessary, to grant to the United States and its licensees for the conduct of salvage operations on O. and C. lands for a period not to exceed five years, rights-of-way across lands controlled directly or indirectly by him and to grant the right to use to the extent indicated in §§ 2812.3-5 and 2812.3-6 any portions of the road system controlled directly or indirectly by the private operator which is adequate or can economically be made adequate to accommodate the requirements of both the operator and of the United States and its licensees.

For disposal of timber or material to a trespasser, see § 9239.0-9 of this chapter.

§ 2812.0-9 Information collection.

The information collection requirements contained in part 2810 of Group 2800 have been approved by the Office of Management and Budget under 44 U.S.C. 3507 and assigned clearance numbers 1004-0102 and 1004-0107. The information is being collected to permit the authorized officer to determine if use of the public lands should be granted for rights-of-way grants or temporary use permits. The information
