

§ 63.22

47 CFR Ch. I (10–1–04 Edition)

course of its normal business dealings, unless the competing U.S. carrier provides its permission in writing.

(g) The Commission reserves the right to review a carrier's authorization, and, if warranted, impose additional requirements on U.S. international carriers in circumstances where it appears that harm to competition is occurring on one or more U.S. international routes.

(h) Subject to the requirement of § 63.10 of this part that a carrier regulated as dominant along a route must provide service as an entity that is separate from its foreign carrier affiliate, and subject to any other structural-separation requirement in Commission regulations, an authorized carrier may provide service through any wholly owned direct or indirect subsidiaries. The carrier shall, within 30 days after the subsidiary begins providing service, file a letter with the Secretary in duplicate referencing the authorized carrier's name and the FCC file numbers under which the carrier's authorizations were granted and identifying the subsidiary's name and place of legal organization. This provision shall not be construed to authorize the provision of service by any entity barred by statute or regulation from itself holding an authorization or providing service.

(i) An authorized carrier, or a subsidiary operating pursuant to paragraph (h) of this section, that changes its name (including the name under which it is doing business) shall notify the Commission by letter filed with the Secretary in duplicate within 30 days of the name change. Such letter shall reference the FCC file numbers under which the carrier's authorization was granted.

§ 63.22 Facilities-based international common carriers.

The following conditions apply to authorized facilities-based international carriers:

(a) A carrier authorized under § 63.18(e)(1) may provide international facilities-based services to inter-

national points for which it qualifies for non-dominant regulation as set forth in § 63.10, except in the following circumstance: If the carrier is, or is affiliated with, a foreign carrier in a destination market and the Commission has not determined that the foreign carrier lacks market power in the destination market (see § 63.10(a)), the carrier shall not provide service on that route unless it has received specific authority to do so under § 63.18(e)(3).

(b) The carrier may provide service using half-circuits on any U.S. common carrier and non-common carrier facilities that do not appear on an exclusion list published by the Commission. Carriers may also use any necessary non-U.S.-licensed facilities, including any submarine cable systems, that do not appear on the exclusion list. Carriers may not use U.S. earth stations to access non-U.S.-licensed satellite systems unless the Commission has specifically approved the use of those satellites and so indicates on the exclusion list. The exclusion list is available from the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

(c) Specific authority under § 63.18(e)(3) is required for the carrier to provide service using any facilities listed on the exclusion list, to provide service between the United States and any country on the exclusion list, or to construct, acquire, or operate lines in any new major common carrier facility project.

(d) The carrier may provide international basic switched, private line, data, television and business services.

(e) The carrier shall file annual international circuit status reports as required by § 43.82 of this chapter.

(f) The authority granted under this part is subject to all Commission rules and regulations and any conditions or limitations stated in the Commission's public notice or order that serves as the carrier's Section 214 certificate. See §§ 63.12, 63.21 of this part.
