**§ 64.1310 Payphone compensation payment procedures.**

(a) It is the responsibility of the first facilities-based interexchange carrier to which a compensable coinless access code or subscriber toll-free payphone call is delivered by the local exchange carrier to track, or arrange for the tracking of, each such call so that it may accurately compute the compensation required by § 64.1300(a). The first facilities-based interexchange carrier to which a compensable coinless payphone call is delivered by the local exchange carrier must also send back to each payphone service provider at the time dial around compensation is due to be paid a statement in computer readable format indicating the toll-free and access code numbers that the LEC has delivered to the carrier, and the volume of calls for each toll-free and access number each carrier has received from each of that payphone service provider's payphones, unless the payphone service provider agrees to other arrangements.

(b) The first facilities-based interexchange carrier to which a compensable coinless payphone call is delivered by the local exchange carrier may obtain reimbursement from its reseller and debit card customers for the compensation amounts paid to payphone service providers for calls carried on their account and for the cost of tracking compensable calls. Facilities-based carriers and resellers may establish or continue any other arrangements that they have with payphone service providers for the billing and collection of compensation for calls subject to § 64.1300(a), if the involved payphone service providers so agree.

(c) Local Exchange Carriers must provide to carriers required to pay compensation pursuant to Section 64.1300(a) a list of payphone numbers in their service areas. The list must be provided on a quarterly basis. Local Exchange Carriers must verify disputed numbers in a timely manner, and must maintain verification data for 18 months after close of the compensation period.

(d) Local Exchange Carriers must respond to all carrier requests for payphone number verification in connection with the compensation requirements herein, even if such verification is a negative response.

(e) A payphone service provider that seeks compensation for payphones that are not included on the Local Exchange Carrier's list satisfies its obligation to provide alternative reasonable verification to a payor carrier if it provides to that carrier:

(1) A notarized affidavit attesting that each of the payphones for which the payphone service provider seeks compensation is a payphone that was in working order as of the last day of the compensation period; and

(2) Corroborating evidence that each such payphone is owned by the payphone service provider seeking compensation and was in working order on the last day of the compensation period. Corroborating evidence shall include, at a minimum, the telephone bill for the last month of the billing quarter indicating use of a line screening service.
