

(2) After considering all relevant material, the designated official notifies the foreign air carrier of any amendment adopted or rescinds the notice. If the amendment is adopted, it becomes effective not less than 30 calendar days after the foreign air carrier receives the notice of amendment, unless the foreign air carrier petitions the Administrator to reconsider no later than 15 calendar days before the effective date of the amendment. The foreign air carrier must send the petition for reconsideration to the designated official. A timely petition for reconsideration stays the effective date of the amendment.

(3) Upon receipt of a petition for reconsideration, the designated official either amends or withdraws the notice or transmits the petition, together with any pertinent information, to the Administrator for reconsideration. The Administrator disposes of the petition within 30 calendar days of receipt by either directing the designated official to withdraw or amend the amendment, or by affirming the amendment.

(d) *Emergency amendments.* If the designated official finds that there is an emergency requiring immediate action with respect to safety in air transportation or in air commerce that makes procedures in this section contrary to the public interest, the designated official may issue an amendment, without the prior notice and comment procedures in paragraph (c) of this section, effective without stay on the date the foreign air carrier receives notice of it. In such a case, the designated official will incorporate in the notice a brief statement of the reasons and findings for the amendment to be adopted. The foreign air carrier may file a petition for reconsideration under paragraph (c) of this section; however, this does not stay the effectiveness of the emergency amendment.

Subpart C—Operations

§ 1546.201 Acceptance and screening of individuals and accessible property.

(a) *Preventing or deterring the carriage of any explosive, incendiary, or weapon.* Unless otherwise authorized by TSA, each foreign air carrier must use the measures in its security program to

prevent or deter the carriage of any explosive, incendiary, or weapon on or about each individual's person or accessible property before boarding an aircraft or entering a sterile area.

(b) *Screening of individuals and accessible property.* Except as provided in its security program, each foreign air carrier must ensure that each individual entering a sterile area at each preboard screening checkpoint for which it is responsible, and all accessible property under that individual's control, are inspected for weapons, explosives, and incendiaries as provided in § 1546.207.

(c) *Refusal to transport.* Each foreign air carrier conducting an operation for which a security program is required by § 1546.101(a), (b), or (c) must refuse to transport—

(1) Any individual who does not consent to a search or inspection of his or her person in accordance with the system prescribed in this part; and

(2) Any property of any individual or other person who does not consent to a search or inspection of that property in accordance with the system prescribed by this part.

(d) *Explosive, incendiary, weapon: Prohibitions and exceptions.* No individual may, while on board an aircraft being operated by a foreign air carrier in the United States, carry on or about his person a deadly or dangerous weapon, either concealed or unconcealed. This paragraph (d) does not apply to—

(1) Officials or employees of the state of registry of the aircraft who are authorized by that state to carry arms; and

(2) Crewmembers and other individuals authorized by the foreign air carrier to carry arms.

§ 1546.203 Acceptance and screening of checked baggage.

(a) *Preventing or deterring the carriage of any explosive or incendiary.* Each foreign air carrier must use the procedures, facilities, and equipment described in its security program to prevent or deter the carriage of any unauthorized explosive or incendiary on-board aircraft in checked baggage.

(b) *Refusal to transport.* Each foreign air carrier must refuse to transport any individual's checked baggage or

property if the individual does not consent to a search or inspection of that checked baggage or property in accordance with the system prescribed by this part.

(c) *Firearms in checked baggage.* No foreign air carrier may knowingly permit any person to transport, nor may any person transport, while aboard an aircraft being operated in the United States by that carrier, in checked baggage, a firearm, unless:

(1) The person has notified the foreign air carrier before checking the baggage that the firearm is in the baggage; and

(2) The baggage is carried in an area inaccessible to passengers.

§ 1546.205 Acceptance and screening of cargo.

(a) *General requirements.* Each foreign air carrier must use the procedures, facilities and equipment described in its security program to prevent or deter the carriage of unauthorized explosives or incendiaries in cargo onboard a passenger aircraft.

(b) *Refusal to transport.* Each foreign air carrier must refuse to transport any cargo if the shipper does not consent to a search or inspection of that cargo in accordance with the system prescribed by this part.

§ 1546.207 Screening of individuals and property.

(a) *Applicability of this section.* This section applies to the inspection of individuals, accessible property, checked baggage, and cargo as required under this part.

(b) *Locations within the United States at which TSA conducts screening.* As required in its security program, each foreign air carrier must ensure that all individuals or property have been inspected by TSA before boarding or loading on its aircraft. This paragraph applies when TSA is conducting screening using TSA employees or when using companies under contract with TSA.

(c) *Foreign air carrier conducting screening.* Each foreign air carrier must use the measures in its security program to inspect the individual or property. This paragraph does not apply at

locations identified in paragraphs (b) of this section.

§ 1546.209 Use of X-ray systems.

(a) *TSA authorization required.* No foreign air carrier may use any X-ray system within the United States to screen accessible property or checked baggage, unless specifically authorized under its security program. No foreign air carrier may use such a system in a manner contrary to its security program. TSA authorizes foreign air carriers to use X-ray systems for inspecting accessible property or checked baggage under a security program if the foreign air carrier shows that—

(1) The system meets the standards for cabinet X-ray systems primarily for the inspection of baggage issued by the Food and Drug Administration (FDA) and published in 21 CFR 1020.40;

(2) A program for initial and recurrent training of operators of the system is established, which includes training in radiation safety, the efficient use of X-ray systems, and the identification of weapons, explosives, and incendiaries; and

(3) The system meets the imaging requirements set forth in its security program using the step wedge specified in American Society for Testing Materials (ASTM) Standard F792-88 (Re-approved 1993). This standard is incorporated by reference in paragraph (g) of this section.

(b) *Annual radiation survey.* No foreign air carrier may use any X-ray system unless, within the preceding 12 calendar months, a radiation survey is conducted that shows that the system meets the applicable performance standards in 21 CFR 1020.40.

(c) *Radiation survey after installation or moving.* No foreign air carrier may use any X-ray system after the system has been installed at a screening point or after the system has been moved unless a radiation survey is conducted which shows that the system meets the applicable performance standards in 21 CFR 1020.40. A radiation survey is not required for an X-ray system that is designed and constructed as a mobile unit and the foreign air carrier shows that it can be moved without altering its performance.
