

§ 385.315

§ 385.315 Where will the safety audit be conducted?

The safety audit will generally be conducted at the new entrant's business premises.

§ 385.317 Will a safety audit result in a safety fitness determination by the FMCSA?

A safety audit will not result in a safety fitness determination. Safety fitness determinations follow completion of a compliance review.

§ 385.319 What happens after the completion of the safety audit?

(a) Upon the completion of the safety audit, the auditor will review the findings with the new entrant.

(b) If the FMCSA determines that the safety audit discloses that the new entrant has adequate basic safety management controls, the FMCSA will provide the new entrant written notice as soon as practicable, but not later than 45 days after the completion of the safety audit, that it has adequate basic safety management controls. The new entrant's safety performance will continue to be closely monitored for the remainder of the 18-month period of new entrant registration.

(c) If the FMCSA determines that the findings of the safety audit disclose that the new entrant's basic safety management controls are inadequate, it will provide the new entrant written notice, as soon as practicable, but not later than 45 days after the completion of the safety audit, that its USDOT new entrant registration will be revoked and its operations placed out-of-service unless it takes the actions specified in the notice to remedy its safety management practices within:

(1) 45 days of the date of the notice if the new entrant transports passengers in a CMV designed or used to transport 16 or more passengers, including the driver, or transports hazardous materials requiring placarding; or

(2) 60 days of the date of the notice for all other new entrants.

49 CFR Ch. III (10-1-04 Edition)

§ 385.321 What failures of safety management practices disclosed by the safety audit will result in a notice to a new entrant that its DOT new entrant registration will be revoked?

The failures of safety management practices consist of a lack of basic safety management controls as described in Appendix A of this part and will result in a notice to a new entrant that its DOT new entrant registration will be revoked.

§ 385.323 May the FMCSA extend the period under § 385.319(c) for a new entrant to take corrective action to remedy its safety management practices?

(a) If a new entrant that transports passengers in a CMV designed or used to transport 16 or more passengers, including the driver, or transports hazardous materials in quantities requiring placarding, has submitted evidence that corrective actions have been taken pursuant to § 385.319(c) and the FMCSA cannot make a determination regarding the adequacy of the corrective actions within the 45 day period, the period may be extended for up to 10 days at the discretion of the FMCSA.

(b) The FMCSA may extend the 60-day period in § 385.319(c)(2), for up to an additional 60 days provided FMCSA determines that the new entrant is making a good faith effort to remedy its safety management practices.

§ 385.325 What happens after a new entrant has been notified under § 385.319(c) to take corrective action to remedy its safety management practices?

(a) If the new entrant provides evidence of corrective action acceptable to the FMCSA within the time period provided in § 385.319(c), including any extension of that period authorized under § 385.323, the FMCSA will provide written notification to the new entrant that its DOT new entrant registration will not be revoked and it may continue operations.

(b) If a new entrant, after being notified that it is required to take corrective action to improve its safety management practices, fails to submit a
