### § 202.4 Control.

A company or person is controlled by one or more carriers, whenever there exists in one or more such carriers the right or power by any means, method or circumstance, irrespective of stock ownership to direct, either directly or indirectly, the policies and business of such a company or person and in any case in which a carrier is in fact exercising direction of the policies and business of such a company or person.

### § 202.5 Company or person under common control.

A company or person is under common control with a carrier, whenever the control (as the term is used in § 202.4) of such company or person is in the same person, persons, or company as that by which such carrier is controlled.

### § 202.6 Casual service and the casual operation of equipment or facilities.

The service rendered or the operation of equipment or facilities by a controlled company or person in connection with the transportation of passengers or property by railroad is "casual" whenever such service or operation is so irregular or infrequent as to afford no substantial basis for an inference that such service or operation will be repeated, or whenever such service or operation is insubstantial.

### § 202.7 Service or operation in connection with railroad transportation.

The service rendered or the operation of equipment or facilities by persons or companies owned or controlled by or under common control with a carrier is in connection with the transportation of passengers or property by railroad, or the receipt, delivery, elevation, transfer in transit, refrigeration or icing, storage, or handling of property transported by railroad, if such service or operation is reasonably directly related, functionally or economically, to the performance of obligations which a company or person or companies or persons have undertaken as a common carrier by railroad, or to the receipt, delivery, elevation, transfer in transit, refrigeration or icing, storage, or handling of property transported by railroad.

(3) The amount of its business which constitutes a service or operation of equipment or facilities in connection with the transportation of passengers or property by railroad and the ratio of such business to its entire business;

(4) Whether such service or operation is a separate and distinct enterprise;
